Choosing a Program with your Child

Recreation activities play an important role in your child's life. When children are involved in something they like, they will keep doing it. Programs should be paced according to the needs of your child. Keep in mind not to over-schedule your child in too many activities.

Choose programs that:

★ Will provide a positive experience for your child: physically, socially, and emotionally
★ will fit into the needs of your family schedule (if they are interested in choosing programs that are very time demanding, help them choose the ones they are most interested in)
★ match interests and needs of your child ★ your child will find fun and interesting
★ offer choice, variety and balance ★ encourage personal development

Commemorative AccessAbility® Table

Commemorate a special event or person with an accessible picnic table located in a City of Toronto park. This program is a joint venture between the Ontario March of Dimes and the City of Toronto.

Ontario March of Dimes, a non-profit organization dedicated to creating a society inclusive of people with disabilities, has developed the AccessAbility® Table. This universally-designed, accessible picnic table is perfect for all outdoor recreation areas. It is constructed of galvanized steel, stainless steel and plastic wood. All components are maintenance-free, have a long lifespan, and are recyclable. The stainless steel centre can be personalized with an etched dedication and/or company logo, and a built-in chessboard provides an opportunity for recreational interaction. The AccessAbility Table is a perfect way to pay tribute to someone special, honour an occasion, or raise your organization's profile.

For more information please call Elaine Darling at Ontario March of Dimes at 416-425-3463 ext. 369 or e-mail edarling@dimes.on.ca
