TORONTO YOUTH CABINET

May 7th, 2013

Toronto City Council

The Toronto Youth Cabinet is writing this letter in support of the Executive Committee's recommendations pertaining to the Toronto International Film Festival's (TIFFs) efforts to obtain legislation from the provincial government, enabling City Council to grant TIFF a property tax exemption for the Bell Light box facility they currently manage.

After research, and consultation with young people, we recognize that this exemption will help TIFF in becoming more economically sustainable, and that this exemption will provide an incentive for TIFF to continue operating as one of Toronto's most valued events for youth employment, tourism, culture, and Ontario's growing film industry.
