

**Got
household
hazardous
waste?**

**Safe
disposal**

Dispose of them safely

- > Cleaning supplies, bleach, paint, batteries, old medication, fluorescent light bulbs, motor oil, propane tanks/cylinders, etc.

You have three disposal options for HHW:

- > Take them to a Drop-off Depot.
- > Take them to your local Community Environment Day event.
- > Call the Toxics Taxi which provides free pick-up of 10 to 50 litres of HHW materials from Toronto residents. Call 311 to book an appointment.

Your building may have a disposal place for HHW.
Ask your building manager.
