

2010/2011 Toronto Public Health AIDS Prevention Community Investment Program Report Guidelines for "Returning" Projects

As of 2008, projects that were funded in the previous year and are currently funded to provide HIV/AIDS prevention activities to the same target population have a new interim report guideline. You will be required to meet with your project officer in the fall (September – December) for a verbal report (site visit). Your project officer will discuss activities, evaluation, budget, future plans, reports, etc., with you at that time.

The Interim Report for returning projects should be a one page document providing a brief summary of the project activities; this can include observations, staffing issues and trends. **Returning projects are not required to complete Appendix B and Appendix C in the interim report. Returning projects must still include Appendix A (cover sheet) and Appendix D (budget sheet).** Please be specific and concise, use point form and include only information on APCIP funded activities.

Please forward one copy of your interim report to your project officer by **January 17th, 2011.**

The information gathered from project reports and the evaluation summaries will be used to assist Toronto Public Health to identify emerging trends and shifts in project strategies and for aggregate statistical reporting to the City of Toronto Community Partnership and Investment Program.

You must notify us in advance of any proposed changes to the project, staff, office location or budget.

The criteria for Final Reports continues to be applied - Final report and evaluative summary is due **July 18th, 2011 and must include Appendix A, B, C, D and E**

- **Appendix A: Cover Page.** Please ensure it is signed and dated. **E-mail signatures are not accepted.**
- **Appendix B: Staffing.** Provide the name, title, salary, hours/week and total hours for the reporting period of each employee (incl. peers) paid with funds provided by APCIP.
- **Appendix D: Financial Statement.**
 - report only on money received from AIDS Prevention Community Investment Program - do not include in kind contributions or other sources of funding.
 - include a financial statement that shows expenditures for the period covered by the report and total expenditures to date.
 - submit exact spending figures, as per receipts. (For example, if \$100 was allocated for a particular budget item, and at the 6 month report you spent \$47.15, please record \$47.15. Do not round off to \$50.00).
- **One-Page Summary of Project Status**

Content of Final Year End Report:

- the final report must include Appendix A, B , C, D for the period Jan. 1st to June 30th and the year end service level indicator form Appendix E.
- the final report does not need to include detailed information already provided in the interim report.
- the final report must include a *brief evaluative summary* (2 pages maximum) of the overall project for the year. the evaluative summary is an overview of the entire project from beginning to end. Please detail the successes, the challenges, lessons learned and why the project is needed in the community.
- include a summary of the results of your project, relying on any evaluation from both reporting periods.
- indicate what you would do differently and how you would build on your project based on the results of the evaluations.
- the evaluative summary must identify emerging trends (social, knowledge and/or behavioural) that are directly linked to the project activities.

Educational/Promotional Materials

- the development of any educational materials or promotional items directly funded as part of a grant from APCIP or developed using staff time funded in your grant should be included. New resources and revisions, adaptation or translation of existing resources should also be included.
- provide a description of each item, its purpose and its intended target group.
- please discuss content ideas in early stages with your projects officer or include in your written report. If you are producing audio visual material, please involve your project officer in a theme meeting and/or share a written outline/content overview.
- describe the development, review process and production schedule for these materials in detail (e.g. focus testing, input from colleagues).
- describe your distribution strategy to the target population.
- include samples of draft materials for review by Toronto Public Health, providing at least 3 weeks for input.
- comments will be returned to you as to a) concept or wording that should be changed; and b) readability and editorial suggestions for your consideration.

Please note: All funded organizations MUST maintain records of **all** services provided on behalf of the City of Toronto, please ensure your records contain dates, locations, key contacts and numbers where applicable – this information could be requested at any time during the project history.
