About the Health Promotion & Environmental Protection Office

The Health Promotion & Environmental Protection Office (HP & EPO) of Toronto Public Health works to protect the residents of Toronto from the adverse health effects that may result from pollution. The Office promotes good health and environmental protection through its research, advocacy and education activities. In addition, it encourages governments, the private sector and the public to take actions that will lead to a cleaner, healthier environment.

This report was written by the following HP & EPO staff members: Karen Clark, Carol Mee, Loren Vanderlinden, Jane Ying and Monica Campbell. Copies of this document and technical reports on the potential health effects associated with pesticide use and a survey of public responses to questions about pesticide use in the City of Toronto are available from:

Health Promotion & Environmental Protection Office
Toronto Public Health
277 Victoria Street, 7th Floor
Toronto, Ontario M5B 1W2
