

Erratum – Singleton Low Birth Weight Rate

Page 12 of the original release of [The Unequal City: Income and Health Inequalities in Toronto, 2008](#), stated that “The overall singleton low birth weight rate for Toronto was **4.5** per 100 singleton births per year”. This statement should read “The overall singleton low birth weight rate for Toronto was **5.6** per 100 singleton births per year”.

Please note that the current web version of the report has been corrected. We apologize for this error. For more information, please contact Toronto Public Health at 416-392-7450 or map@toronto.ca
