Road Reconstruction on Roselawn Avenue and Caldow Road

Anticipated Construction Start Date: May 2011

Anticipated Construction Completion Date: August 2011

Schedule is subject to change pending weather and unforeseen conditions

The City of Toronto plans to resume road reconstruction on Roselawn Avenue between Caldow Road and Chaplin Crescent and Caldow Road between Castlefield Avenue to Roselawn Avenue on May 16, 2011.

Construction Details:

The reconstruction will include:

- Excavating the existing asphalt roadway
- Adjustment of catch basins
- Concrete road base
- Asphalt paving
- Landscaping and restoration

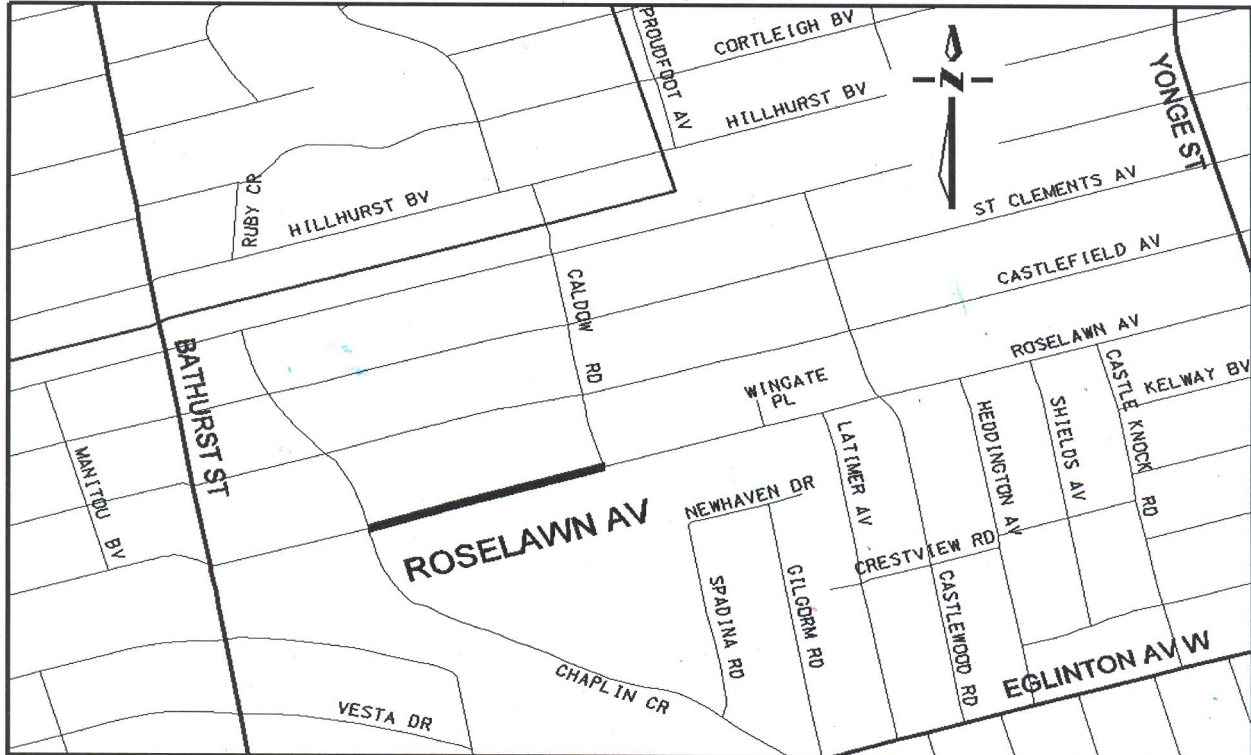

During construction, traffic will be maintained as follows:

During working hours (from 7:00 a.m. to 7:00 p.m.), two-way traffic will be maintained.

After the construction is completed, any damaged grassed areas will be repaired along with damages to driveways, sidewalks and curbs. The contractor is responsible for ensuring that the new sod takes root by watering at frequent intervals during the first few weeks. The City will monitor the growth of the sod to ensure that it has rooted. Once the sod has rooted, the contractor's obligations are completed. It will then be the property owner's responsibility to ensure continued growth through normal maintenance. Please be aware that the City will not replace sod that has been neglected.

The City will make every effort to keep inconvenience to residents, businesses and property owners to a minimum and ask for your co-operation.

Map of Work Area: Roselawn Avenue and Caldow Road
