UPDATE **Brimley Road Sidewalk Reconstruction**

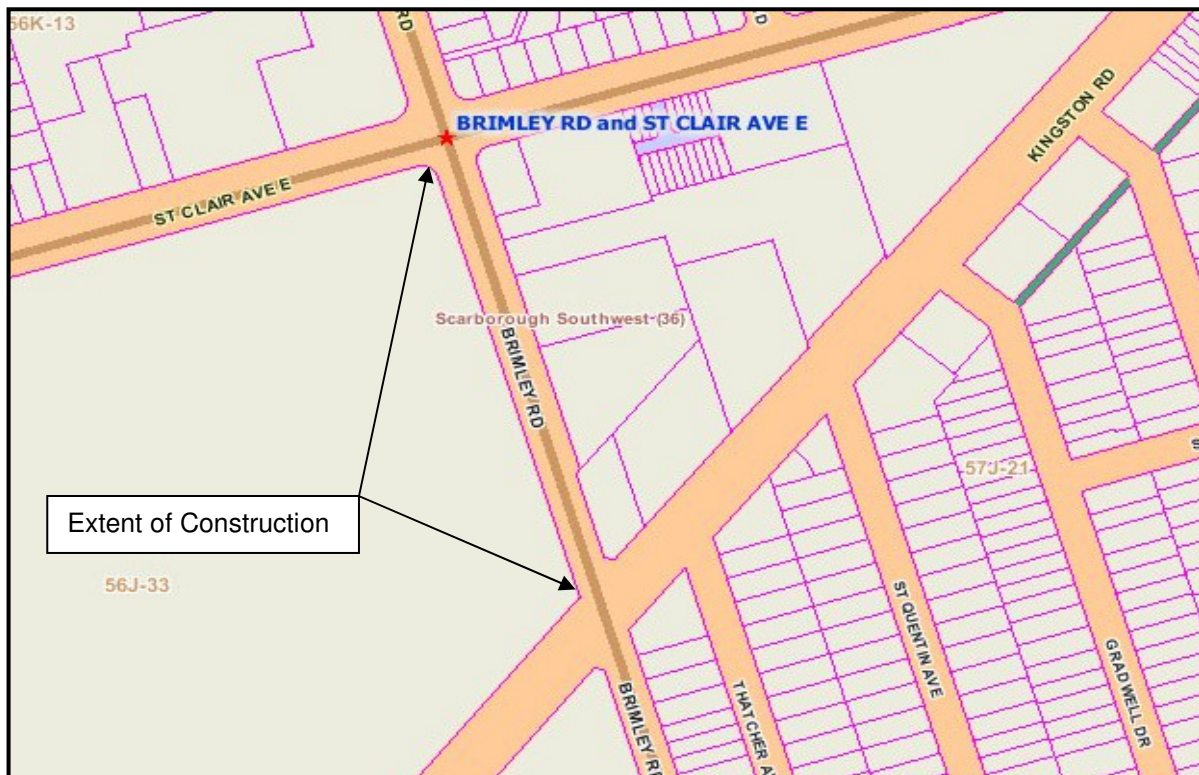

Expected Project Start Date: Spring, 2012
Expected Project Completion Date: Summer, 2012

You previously received a Public Notice about this project, dated March 30, 2011. Please note the following **revised** expected project start and completion dates.

The City of Toronto will be reconstructing the sidewalk west side of Brimley Road (between St. Clair Avenue East to Kingston Road) and stabilising the slope with a retaining wall behind the reconstructed sidewalk, as part of the 2011 Transportation Capital Works Program, which is now scheduled to be delivered in Spring-Summer 2012.

Further notice will be given prior to construction with a more accurate start date and other information regarding the work. Your co-operation and patience during the construction period is crucial and will be appreciated.

Map of Work Area

Project Details

The scope of work includes the reconstruction of the sidewalk on the west side of Brimley Road and stabilise the slope behind the sidewalk.

During construction, temporary lane closures adjacent to construction zones will be enforced, as required. Business access and emergency traffic will be maintained at all times.

Any/all areas disturbed during construction will be restored to original condition

Many people have planted landscaping, fences, irrigation systems or other physical features in front of their home which are within the City property limits. These may be in the way of the construction. In such cases, residents are advised to remove these items prior to the beginning of construction in order to avoid unnecessary damage. The City will not be responsible for damage to any privately owned items installed on the City's property.

Next Steps

1. Project design is nearing completion and when complete there will be a public tender call. A contract will be awarded to the firm with the lowest bid price meeting the City's specifications.
2. A construction notice will be distributed to all residents/business in the locale of the project area prior to the start of construction.
3. The expected start date of construction is Spring 2012.
