Shaw Street TTC Track Reconstruction, Roadway Resurfacing and Sidewalk Repairs

Expected Project Start Date: September 2011*

Expected Completion Date: November 2011*

**Timelines subject to change due to unforeseen events.*

The City of Toronto and the Toronto Transit Commission (TTC) will undertake major construction work on Shaw Street between King Street West and Queen Street West this year from September to November.

The work will involve reconstruction of TTC streetcar track, roadway resurfacing, localized roadway reconstruction, and localized sidewalk repairs.

Further notice will be given prior to construction with a more accurate start date and other information regarding the work. The City appreciates your understanding and co-operation.

Map of Work Area

Disruptions

As with all construction projects, there will be noise and temporary inconveniences. In order to complete the work effectively and in a safe manner, some pedestrian and traffic restrictions will be necessary. The contractor will further notify you of any temporary disruptions. Every effort will be made to reduce the inconvenience.

Traffic and Parking Restrictions

During heavy construction, restrictions will be imposed to turning, parking and driving lanes in and around the work area. During TTC track reconstruction, traffic on Shaw Street for a majority of the time will be limited to one lane south bound. No parking will be permitted in the active work zones.

Pedestrian Access

Pedestrian access to businesses, residences and laneways will be maintained on both sides of Shaw Street at all times during construction.

Example of TTC track reconstruction work in progress

TTC Service Changes

Transit Services on Shaw Street will be diverted as required during the track reconstruction phase of the project. Details will be provided prior to work beginning.
