

1. SOURCE CONTROLS

	Page
Storm Drain Flushing _____	1 - 1
Catch Basin Cleaning _____	1 - 3
Street Cleaning _____	1 - 5
Control of Road De-Icers _____	1 - 8
Control of Fertilizers and Pesticides _____	1 - 10
Enforcement of Anti-Litter and Discharge By-Law _____	1 - 12
Water Conservation _____	1 - 15
Erosion and Sediment Control _____	1 - 18
Used Oil Recycling _____	1 - 20
Household Hazardous Waste Collection _____	1 - 22
Safer Alternative Products _____	1 - 24
Materials Storage Controls _____	1 - 26
Vehicle Use Reduction _____	1 - 28
Pool Drainage _____	1 - 30
Spills Control _____	1 - 32
Leaf Clearing and Removal _____	1 - 34
Modifying Engineering Standards _____	1 - 36
Cross Connection Control Program _____	1 - 38
Roof Leader Disconnection _____	1 - 40
Foundation Drain Disconnection _____	1 - 42
Lot Level Storage/Infiltration Systems _____	1 - 44
Lot Grading _____	1 - 46
Catchbasin Restrictors/Inlet Controls _____	1 - 48
Porous Pavement _____	1 - 50
Soakaway Pits _____	1 - 52
Backyard Swales _____	1 - 55
Vegetative Filter Strips _____	1 - 58
Stream and Valley Corridor Buffer Strips _____	1 - 61
Bioretention Areas _____	1 - 64
Rooftop Storage and Rooftop Gardens _____	1 - 67
Enhanced Yard Vegetation and Rain/Storm Gardens _____	1 - 70
Urban Forest _____	1 - 73
Oil/Grit Separators _____	1 - 76
Superpipes _____	1 - 79
Ex-Situ Biological Leachate Treatment Technologies _____	1 - 81
Ex-Situ Physical/Chemical Leachate Treatment Technologies _____	1 - 86
Co-Metabolic, Enhanced Biodegradation, Natural Attenuation _____	1 - 92
Air Sparging, Bioslurping, Dual Phase Extraction, Fluid/Vapour Extraction, Steam Flushing/Stripping, In-Well Air Stripping _____	1 - 96
Natural Attenuation _____	1 - 103
Waterloo Barrier _____	1 - 105
Slurry Wall _____	1 - 107
Pump and Disposal _____	1 - 109
Surface Capping _____	1 - 112
Bioventing, Enhanced Bioremediation, Land Treatment, Natural Attenuation, Phytoremediation _____	1 - 114
Electrokinetic Separation, Soil Flushing, Soil Vapour Extraction, Solidification/Stabilization _____	1 - 118

2.CONVEYANCE CONTROL

	Page
Sewer Rehabilitation _____	2-1
Sewer Rehabilitation – Lining Technologies _____	2-3
Sewer Rehabilitation – Internal Grouting _____	2-6
Manhole Rehabilitation – Non-Structural _____	2-8
Sewer Replacement _____	2-10
In-Line / Off-Line Storage _____	2-12
Real Time Control _____	2-14
Sewer Separation _____	2-17
Stream Corridor Measures _____	2-21
Channel Modification _____	2-24
Bank Protection _____	2-27
Roadside Ditches _____	2-30
Grassed Swales _____	2-32
Pervious Technologies - Pervious Pipe Systems _____	2-35
Pervious Technologies - Pervious Curb and Gutter System _____	2-38
Pervious Technologies - Pervious Catch-basins _____	2-41

3.END-OF-PIPE CONTROL

	Page
Sediment Management _____	3 - 1
Upgrade/Retrofit Existing Treatment Facilities _____	3 - 4
Increase Treatment Capacity _____	3 - 6
Diversion _____	3 - 8
Screening _____	3 - 9
Disinfection _____	3 - 11
Physical/Chemical _____	3 - 15
High Rate Treatment Devices (Swirl Concentrator, Fluidsep/Vortex Separator, Storm King) _____	3 - 17
Dissolved Air Flotation _____	3 - 20
Enclosed Beach Areas _____	3 - 22
Floatable Control _____	3 - 24
Dry Ponds _____	3 - 26
Wet Ponds _____	3 - 29
Tank/Tunnel _____	3 - 33
Open Tank/Lagoon _____	3 - 35
Extended Outfalls _____	3 - 37
Constructed Wetlands _____	3 - 39
Hybrid Wet Ponds/Wetlands _____	3 - 43
Filters _____	3 - 46
Living Machines/Solar Aquatics _____	3 - 49
Dunkers Flow Balancing System _____	3 - 52

4.MANAGEMENT / OPERATION

	Page
Public Education _____	4 - 1
Business Education and Awareness _____	4 - 4
Yellow Fish Road Program _____	4 - 6

5. SPECIAL MEASURES (HABITAT ENHANCEMENT)

	Page
Fish Movement / Barrier Alteration _____	5 - 1
Aquatic Habitat Enhancement / Instream Practices _____	5 - 3
