

February 2, 2012

Normal Parking Restored on Cottingham Street and Poplar Plains Crescent Effective Wednesday, February 8, 2012 at 12:01 p.m.

Watermain Construction on Cottingham Street At the High Level Pumping Station

Parking

On December 20, 2011 you were sent a Construction Notice explaining that watermain construction work would be continuing on Cottingham Street between Poplar Plains Road and Rathnelly Avenue until January 31, 2012. The notice also explained that this work would require the loss of five parking spots along Cottingham Street and that replacement parking spots would be provided by allowing vehicles to park on Poplar Plains Crescent between Poplar Plains Road and Rathnelly Avenue at any time, day or night, and for any length of time.

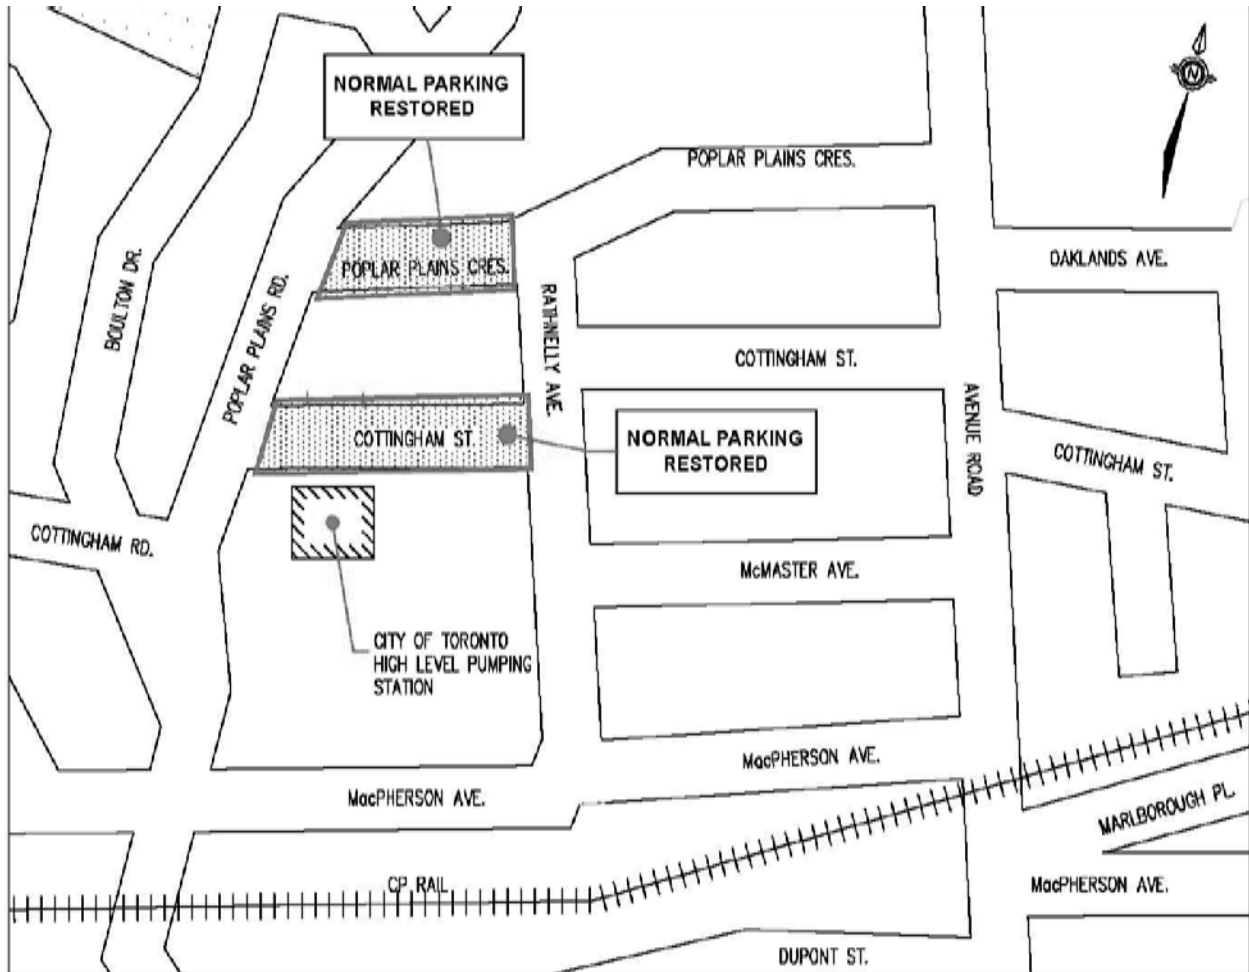

Toronto Water has now completed most of its watermain construction work on Cottingham Street. This allows us to restore parking on Cottingham Street to normal, effective immediately. This also means that replacement parking will no longer be required on Poplar Plains Crescent between Poplar Plains Road and Rathnelly Avenue. **Please see the map on the back of this page.**

Parking will be restored to normal on Poplar Plains Crescent at 12:01 p.m. on Wednesday, February 8, 2012. The temporary covers on the existing parking signs will be removed at that time. Please adhere to those signs as there will be no consideration for parking offences.

Future Work on Cottingham Street

It will be necessary to resume work on Cottingham Street to make the final connection to the High Level Pumping Station in April or May 2012. It will take about one to two weeks to complete this work. Prior to the commencement of that work, you will receive another Construction Notice which will provide further details.
