## Dundas Street Track Project Service - Update

Streetcar service resumes on Dundas Street east of Parliament Street  
Tuesday, November 27, 2007

On Tuesday, November 27, 2007, streetcar service is scheduled to resume regular routing to communities and local businesses on Dundas Street East between Parliament Street and Broadview Avenue.

With the completion of the track work along this particular section along with other previously completed sections, 505 DUNDAS streetcars will now operate on newly reconstructed track between Lansdowne Avenue and Broadview Avenue. *See map below.*

The design and construction techniques used to build the new track infrastructure on Dundas Street will contribute to a measurable improvement to the long-term performance of the track and concrete pavement, as well as providing a smoother and quieter ride for streetcar passengers.

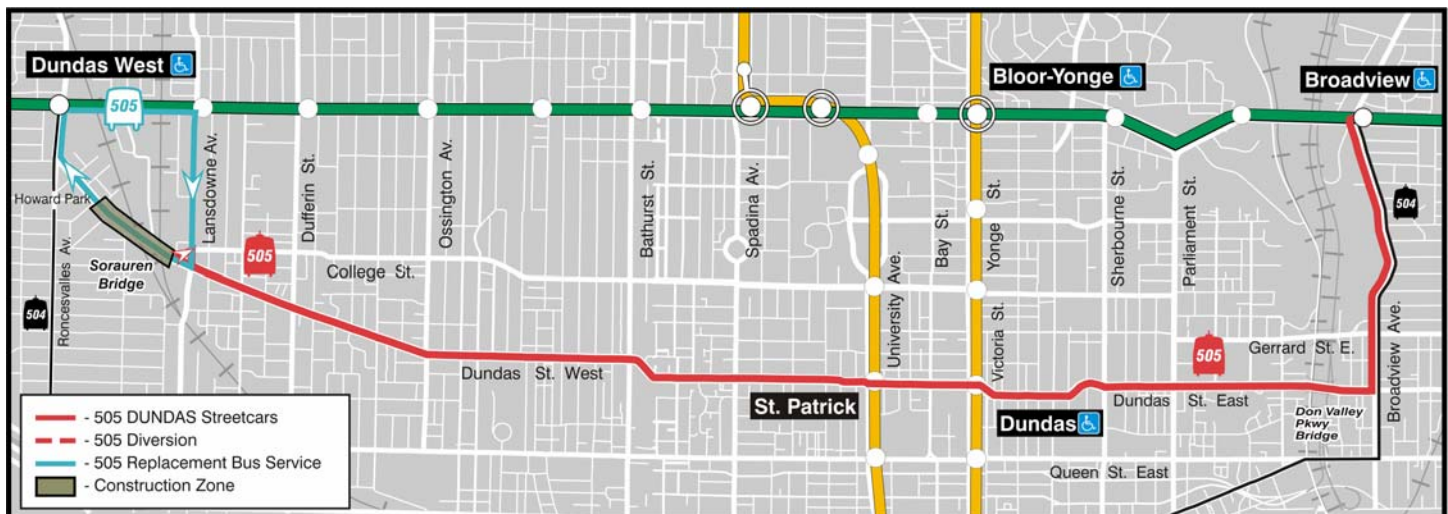

The TTC would like to thank its customers, businesses and area residents for their patience and continued support during the remaining stage of this track project; west of Lansdowne Avenue, scheduled for completion by mid-December 2007. *See map below.*

TTC route and scheduling information is available by calling the TTC Information Line at (416) 393-INFO (4636) or visit our website at [www.ttc.ca](http://www.ttc.ca).
