## Dundas Street Track Project Service - Update

Streetcar service resumes on Dundas Street west of Lansdowne Avenue  
Saturday, December 15, 2007

On Saturday, December 15, 2007 streetcar service is scheduled to resume regular routing on Dundas Street West, west of Lansdowne Avenue.

With the completion of the track work along this particular section along with other previously completed sections, 505 DUNDAS streetcars will now operate on newly reconstructed track along the entire route between Dundas West Station and Broadview Station.

The design and construction techniques used to build the new track infrastructure on Dundas Street will contribute to a measurable improvement to the long-term performance of the track and concrete pavement, as well as providing a smoother and quieter ride for streetcar passengers.

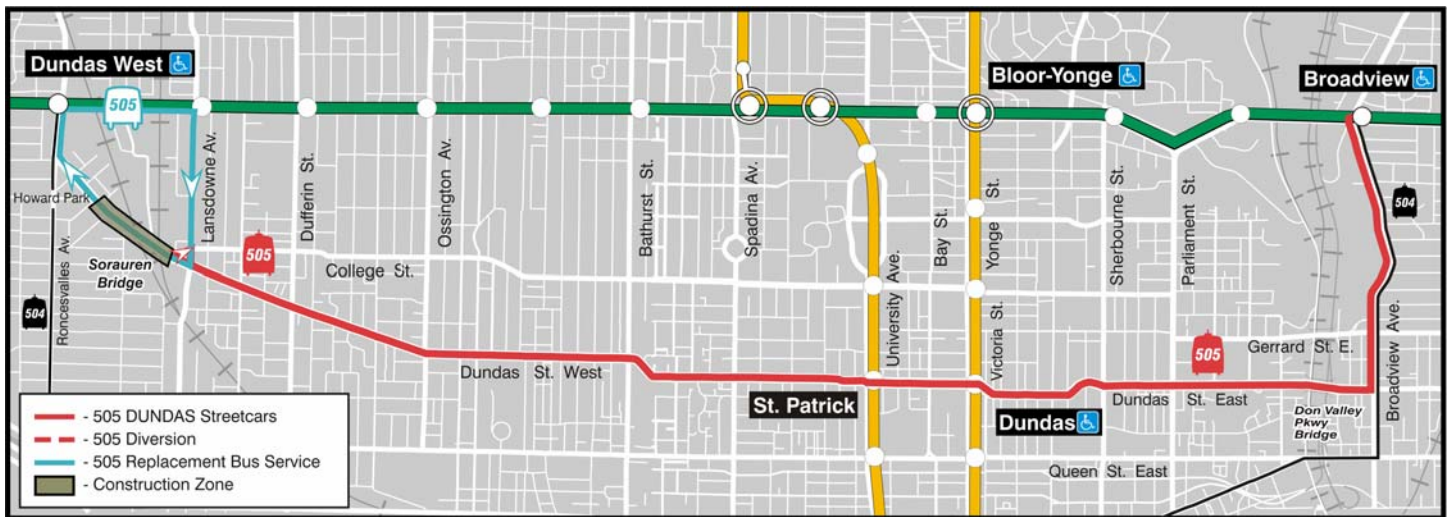

The TTC would like to thank its customers, businesses and area residents for their patience and support during this track project.

TTC route and scheduling information is available by calling the TTC Information Line at (416) 393-INFO (4636) or visit our website at [www.ttc.ca](http://www.ttc.ca).
