

Construction Notice

Dundas Streetcar Track Construction Lansdowne Avenue to Ossington Avenue

Start Date: June 11, 2007*
Completion Date: September 2, 2007*

* Timelines are subject to change due to weather conditions and/or any other unforeseen events.

This year, the City of Toronto – Transportation Services and the Toronto Transit Commission are replacing the streetcar tracks along the 505 Dundas streetcar route. To do this work, lane restrictions/closures will be imposed on vehicular traffic. The project is progressing on schedule.

Track Reconstruction – Lansdowne Avenue to Ossington Avenue

On June 11, 2007 concrete saw-cutting work within the track allowance will begin at Lansdowne Avenue and proceed easterly to Ossington Avenue. The existing streetcar track area will be completely excavated so that new streetcar rails can be installed on a new concrete track base.

- Prior to work beginning, the TTC will deliver crates containing track related materials and placing them in areas where track crews will have easy access during the work, i.e. sidewalk areas and some local streets that run off Dundas Street.
- The work zone will consist of the two track lanes and the eastbound curb lane. The work zone will move east as construction progresses.
- Noise and some vibration should be expected during the work.
- Traffic and parking will be affected by the work.
- Signs will be posted to notify pedestrians and vehicles of traffic and parking changes.
- Safety measures such as barrier fences will be in place at the sidewalks and along the excavation.
- Temporary pedestrian walkways will be placed at excavated areas where traffic lights and pedestrian crosswalks exist.
- Pedestrian sidewalk traffic and access to businesses will be maintained during construction.

STAGE I - Dundas West from LANSDOWNE AVENUE to BROCK AVENUE

Start date: June 11, 2007,
Completion: June 29, 2007

STAGE II- Intersection Closure at OSSINGTON AVENUE and DUNDAS STREET WEST

Start date: June 29, 2007: 7:00a.m.
Completion: July 3, 2007: 5:00a.m.

STAGE III- Dundas West from OSSINGTON AVENUE to EAST OF BROCK AVENUE

Start date: July 3, 2007
Completion: September 2, 2007

Intersection Dundas St. W. and Dovercourt Rd.: July 6, 2007, 7a.m. to July 9, 2007, 5:00a.m.

Intersection Dundas St. W. and Dufferin Street: July 27, 2007, 7a.m. to July 30, 2007, 5a.m.

Work Hours

Streetcar track reconstruction is a 24-hour operation. All heavy construction work will take place between the hours of 7 a.m. to 11 p.m., Monday to Friday, with weekend work as required. The overnight operation involves TTC rail installation work consisting of delivery of rail, rail installation and rail welding/grinding. This work is required to support the daytime construction. Working 24-hours is a necessity in order to complete the project as quickly as possible. Every effort will be made to minimize construction noise during periods of 24-hour operations.

Vehicle Restrictions

- One traffic lane will be maintained in the westbound direction only through the active work zones between Lansdowne Avenue and Ossington Avenue. **No eastbound vehicle traffic** will be permitted through the active construction zones.
- Reconstruction of some major intersections will require a partial or full closure. Work at those intersections will be carried out around-the-clock over a period of time. In those cases, a separate notice will be distributed in advance of work beginning, and site signage will be posted.

(over)

Parking Restrictions

No on-street parking will be available within the work zones until track reconstruction is completed. Signs will be posted to notify of temporary parking changes.

Deliveries

During construction, deliveries to the front of businesses within the work zone will be difficult. Deliveries need to be made from side streets or be coordinated with the on-site City Inspector.

Recycling and Garbage Collection

Recycling and garbage collection schedules on Dundas Street will not change during the construction period. Please follow your normal routine. Place items as close to the usual location as possible, if required the contractor will move the items to an appropriate location and return the bins/containers. Please label your bins/containers with your address.

Local Streets - Two-way Traffic Conversion

During periods of construction, local streets that run off the south side of Dundas Street between Lansdowne Avenue and Ossington Avenue will be closed. The affected one-way streets will be converted to temporary two-way in order to provide access for local residents. All side streets on north side of Dundas Street will remain as they are now.

Please be advised, beginning in late June and continuing until November 2007, the Sorauren Bridge will be under construction. Traffic will be maintained in each direction. More information forthcoming. Please check our website for details.

Trailers

The location of the contractor's office trailer is to be determined.

Transit Services Changes

To accommodate preparation work and the track reconstruction, streetcars on Dundas Street will be re-routed (*see map below*). There will be no bus replacement service provided on Dundas Street. Buses must have room to safely operate and pick up passengers, and this is not possible through the construction zones on Dundas Street. For up-to-date details on these and other service changes, maps and schedules, see the TTC website: www.ttc.ca or call the **TTC Information Line: 416.393.INFO (4636)**.
