

The City of Toronto holds public consultations as one way to engage residents in the life of their city. Toronto thrives on your great ideas and actions. We invite you to get involved.

Jarvis Street Streetscape Improvement Public Meeting and Open House

MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT — NOTICE OF STUDY COMMENCEMENT

The Study Objective

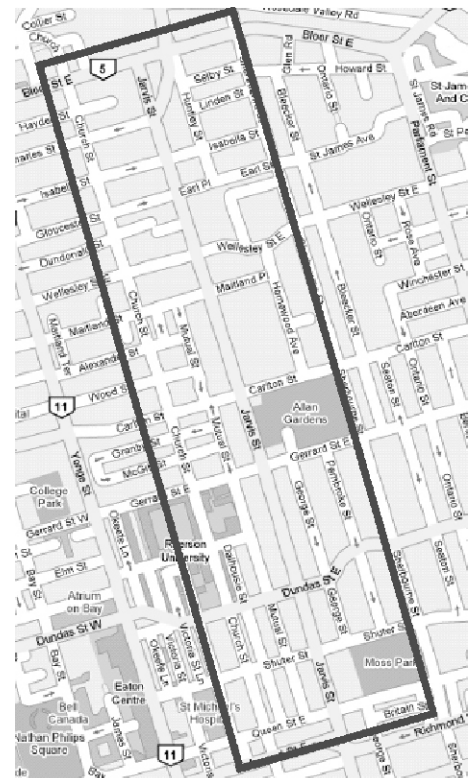

The City of Toronto has started a Class Environmental Assessment (EA) to study and develop streetscape improvement plans and traffic lane modifications along the Jarvis Street corridor from Bloor Street East to Queen Street East, as shown in the map. The study will be an opportunity for the public to provide input into a design concept for Jarvis Street that will meet the aesthetic and historic objectives of the area, improve the streetscaping features and address operational issues along the corridor.

The Study Process

The study is being undertaken in accordance with the Municipal Engineers Association guidelines for a Schedule 'C' Class Environmental Assessment (EA). The Class EA study will define the problems and opportunities, consider and evaluate alternative solutions and design concepts, and present the evaluation process.

Public Participation

Public consultation is a vital component to this study. Two public meetings will be held for the general public to receive your input, comments and concerns on the study findings and recommendations. At the first public meeting and open house we will present the statement of issues for the project, a list of alternative solutions, the evaluation criteria for each alternative and the preliminary preferred alternative. Representatives from the City of Toronto and the project consultants will be present to answer questions and discuss next steps.

The first public meeting and open house will be held as follows:

Date: Wednesday, March 19th, 2008
Time: Open House 6:00 p.m. to 9:00 p.m.
Presentation at 7:00 p.m.
Location: Canada's National Ballet School, 400 Jarvis Street

How to stay involved

If you are unable to attend this meeting but would like to provide us with your comments, require additional information, or would like to be placed on the project mailing list to be notified about upcoming public meetings, please contact:
