

The City of Toronto holds public consultations as one way to engage residents in the life of their city. Toronto thrives on your great ideas and actions. We invite you to get involved.

Scarborough Waterfront Combined Sewer Overflows/Stormwater Outfalls Control and Flood Protection Study

Notice of Public Open House #2

Date: Monday October 5th, 2009
Time: 7:00 p.m. to 9:00 p.m.
Location: Birchmount Park Collegiate Institute (Cafeteria)
3663 Danforth Avenue

Public Consultation

Please join us at our second Public Open House to learn about options to reduce combined sewer overflows and stormwater discharge into the Scarborough Waterfront along Lake Ontario and to minimize basement and surface flooding with the study area (see map). Tell us what you think about the recommended solutions and speak one-on-one with project staff. Drop-in anytime between 7:00 p.m. and 9:00 p.m.

Background

The City of Toronto is carrying out a study to identify ways to manage the impacts of combined sewer overflows and stormwater discharge into the Scarborough Waterfront along Lake Ontario. This study will also identify potential basement and surface flooding areas during the occurrence of significant storm events and make recommendations to prevent/reduce future flooding.

We would like to hear from you

If you are unable to attend the meeting but would like to be provided with information or would like to be added to the study mailing list, please contact:
