

Scarborough Waterfront Combined Sewer Overflows/Stormwater Outfalls Control and Flood Protection Study

Municipal Class Environmental Assessment Notice of Study Completion

The City of Toronto has completed a Municipal Class Environmental Assessment (EA) Study to identify ways to manage the impacts of combined sewer overflows and stormwater discharge into the Scarborough waterfront along Lake Ontario. This study also identified potential basement and surface flooding areas during the occurrence of significant storm events and made recommendations to help reduce the risk of future flooding.

The study defined the problem, identified and evaluated alternative solutions, and determined a preferred solution in consultation with the City of Toronto, regulatory agencies, and the public.

The study has recommended the following:

- Implementation of a source control program to reduce runoff and improve water quality from residential properties.
- Implementation of conveyance control measures to reduce flows and contaminants from municipal road right of ways as part of the road resurfacing/reconstruction works.
- Construction of seven (7) end-of-pipe facilities to store and treat stormwater and combined sewer overflows.
- Construction of flood protection works to reduce basement and surface flooding at five (5) locations within the study area.

Opportunities for Review

The study was carried out following the requirements for Schedule 'C' projects under the Municipal Class EA. An Environmental Study Report (ESR) has been completed and has been placed on public record for a 30-day review period starting April 1st, 2011 and ending May 2nd, 2011.

It will be available for review at:

Taylor Memorial Branch	Albert Campbell Branch	Scarborough C. C.
1440 Kingston Rd.	496 Birchmount Rd.	City Clerk's Office
416-396-8939	416-396-8890	150 Borough Dr.
		3rd Fl.
		416-396-7288

If you have any outstanding issues about this project, please address them to the City staff listed below and we will attempt to seek a mutually acceptable resolution.

Mae Lee (Rigmae), Public Consultation Unit, City of Toronto

If concerns regarding this project cannot be resolved in discussion with the City of Toronto, a person or party may request that the Minister of the Environment make an order for the project to comply with Part II of the Environmental Assessment Act (referred to as a Part II Order), which addresses individual environmental assessments. The Minister must receive the request in writing by May 2nd, 2011 at the address below, and a copy must also be sent to the City contact. If no requests are received by May 2nd, 2011 the City may proceed with this project as outlined in the Environmental Study Report.

The Honourable John Wilkinson Minister of the Environment
77 Wellesley Ave., Ferguson Block, 11th Floor Toronto, Ontario M7A 2T5
Tel.: 416-314-6790 Fax: 416-314-6748

Issue Date: April 1, 2011
