COMMUNICATIONS/REPORTS

8. Change in Mandate of the Toronto Atmospheric Fund (5 MINUTES)

Communication (June 19, 2003) from the Communications and Promotions Subcommittee forwarding the following motion for consideration by the Toronto Cycling Committee:

“The Communications and Promotions Sub-Committee is requesting that the Toronto Cycling Committee ask the Toronto Atmospheric Fund (TAF) to clarify why their mandate has changed to no longer include sustainable transportation issues.

Further: If support of community cycling groups is not part of the TAF mandate, those groups may not be able to continue with their programs, which in turn would affect all cycling planning and promotion across the city.

Further: TAF’s mandate was in support of clean air and smog reduction, which has a direct affect and impact on cyclists and their health. Changing the TAF mandate will cause many worthwhile community initiatives to no longer receive funding for their efforts to prevent poor air quality and encourage sustainable transportation.”
