“Notification of Application for a Rooftop Sign at 3768 Bathurst Street in the City of Toronto

Moved by: Councillor Feldman

Seconded by: Councillor Minnan-Wong

WHEREAS an application has been brought on behalf of the owner of 3768 Bathurst Street in the former City of North York, now the City of Toronto, for the erection of a rooftop sign; and

WHEREAS the current regulations under the existing By-law in the former City of North York, now the City of Toronto, which does permit roof signs, states that said roof sign must be located and erected in a manner that places it at a distance no closer than 500 feet, from any other sign, on the same side of the street; and

WHEREAS on that same side of the street, being the west side of Bathurst Street, there is currently a sign now existing approximately 311 feet north of the proposed sign location; and

WHEREAS on that same side of that street, being the west side of Bathurst Street, there is currently a sign now existing and located approximately 350 feet south of the proposed sign location; and

WHEREAS on that same side of the street, being the North Side of Wilson Avenue, there is currently a sign now existing approximately 196 feet east of the proposed roof sign location; and

Toronto North Community Council Minutes
Monday, January 5, 2004

WHEREAS on that same side of the street, being the North side of Wilson Avenue, there is currently a sign now existing approximately 164 feet west of the proposed roof sign location; and

WHEREAS the subject property is located at the intersection of Bathurst Street and Wilson Avenue, and as such, has frontages on both Wilson Avenue and Bathurst Street, and as such would technically be affected by distance issues both on Bathurst Street and Wilson Avenue; and

WHEREAS it is proposed that the sign be located on the building at 3768 Bathurst Street and the separation distances along Wilson Avenue and Bathurst Street are as outlined above, it should be deemed that these variances are minor in nature and are in keeping with the general intent and purpose of the Sign By-law of the former City of North York; and

WHEREAS it is the policy of the City of Toronto to encourage the improvement and upgrading of the urban streetscape, particularly at core intersections and this invariably places economic pressures on property owners, and as such an augmented revenue flow would encourage such improvements to be implemented;
