- (1) adopt the staff recommendations in the Recommendations Section of the report (May 3, 2006) from the Medical Officer of Health; and**
- (2) hold the statutory meeting under the *Municipal Act, 2001*, at its meeting in June 2006, and forward the report directly to the City Council meeting immediately following the statutory hearing, in accordance with Recommendation (4) of the report (May 3, 2006) from the Medical Officer of Health.**

Action taken by the Board:

**The Board of Health endorsed the staff recommendations in the Recommendations Section of the report (May 3, 2006) from the Medical Officer of Health.**

Report (May 3, 2006) from the Medical Officer of Health, presenting an amended proposal to the October 14, 2005 Board of Health Staff Report regarding Municipal Code Chapter 545 - Licensing, pursuant to City Council's approval of the mandatory certification of food handlers.

Recommendations:

It is recommended that:

- (1) Municipal Code Chapter 545 – Licensing, be amended to require that:
  - (i) every owner/keeper of an eating and drinking establishment ensure that there is at least one food handler who holds a valid food handler certificate issued by the Medical Officer of Health, working in a supervisory capacity in each area of the premises where food is prepared, processed, served, packaged or stored except where Chapter 545 currently mandates that all people working in an establishment must hold a valid food handler certificate;
  - (ii) the food handler certificate along with government issued photo identification with the same name must be shown upon request by the Medical Officer of Health or his or her designate or the Municipal Licensing and Standards Division;

- (iii) training and certification programs offered by organizations other than public health be accredited by the Medical Officer of Health in order to be recognized for the purposes of certifying food handlers;
  - (iv) the food handler certificate and accreditation of training and certification programs be valid for a maximum period of 5 years from the date of accreditation;
  - (v) accredited training and certification programs provide a list of certified food handlers to the Medical Officer of Health for the purposes of issuing valid food handler certificates; and
  - (vi) certified food handlers without government issued photo identification obtain a valid food handler certificate containing their picture issued by the Medical Officer of Health;
- (2) the By-law amendments referred to in recommendation (1) take effect on September 1, 2006 and that compliance enforcement for food handler certification be phased in over a five year period starting with high risk food premises in 2007, medium risk food premises in 2008 and 2009 and low risk food premises in 2010 and 2011;
  - (3) Municipal Code Chapter 441 – Fees, be amended so that effective immediately the following fees shall be paid to the City of Toronto for the Food Handler Training and Certification Program offered by the Medical Officer of Health: Food Handler Training Course \$40; Food Handler Certification Examination and Certificate \$30; Replacement food handler certificate \$10; Food handler photo identification certificate (where the certified food handler does not have government issued photo identification) \$5; Medical Officer of Health issued Certificates for accredited training programs \$5; accreditation for training and certification programs \$300;
  - (4) this report be forwarded to the Planning and Transportation Committee for a statutory meeting in June 2006 under the Municipal Act, 2001 and directly to the City Council meeting immediately following the statutory hearing; and
  - (5) the appropriate City officials be authorized and directed to take the necessary action to give effect thereto.
- 2(a).** Communication (February 10, 2006) from the Budget Advisory Committee, advising that the Budget Advisory Committee, at its meeting on February 6, 2006, during consideration of the 2006 Operating Budget for Public Health, referred the following communications to the Board of Health:

Action taken by the Board:

**The Board of Health adopted the Motion submitted by Councillor Filion.**

Motion submitted by Councillor Filion, for consideration by the Board of Health:

**“WHEREAS** there is an expanding network of cellular phone and other telecommunication towers throughout Toronto’s residential neighbourhoods; and

**WHEREAS** there is concern expressed by citizens related to the potential health effects that may be associated with exposure to the radio waves used with this technology; and

**WHEREAS** increasing concentration of telecommunication towers in certain locations may have the effect of increasing the level of radio frequencies to which the public in the immediate vicinity may be exposed; and

**WHEREAS** scientific studies provide evidence of health risk at levels below the current federal guideline referred to as Safety Code 6;

**WHEREAS** the Board of Health adopted a policy of prudent avoidance respecting cellular telephone base antennas in 1999 that recommends that radio frequencies (measured in power density) from these installations be kept 100 times below the current federal guideline (Safety Code 6) in order to provide a greater level of protection against potential health effects;

**NOW THEREFORE BE IT RESOLVED THAT** the Medical Officer of Health, in collaboration with the Chief Planner and Executive Director, City Planning, report to the Board of Health on the incorporation of the Toronto Public Health prudent avoidance policy into the corporate protocol for the installation of telecommunication towers which is under development.

**AND BE IT FURTHER RESOLVED THAT** the report outlined above address any health risks arising from the concentration of telecommunication towers.
