

Authority: Parks and Environment Committee Item PE18.6, as adopted by City of Toronto Council on April 26, 27 and 28, 2017

**CITY OF TORONTO**

**BY-LAW 600-2017**

**To provide for an integrated pest management plan to control European Gypsy Moth infestation.**

Whereas the presence of European Gypsy Moth populations in certain areas of the City has reached outbreak levels; and

Whereas in the interest of preserving the environmental well-being of the City it is necessary to implement control measures in order to prevent further tree loss and defoliation and to preserve the tree canopy;

The Council of the City of Toronto enacts:

1. The General Manager, Parks Forestry and Recreation is authorized to implement an integrated pest management plan to control European Gypsy Moth infestation in Wards 3, 4, 5 and 13 including:
  - A. Aerial and ground spraying of the biological control agent *Bacillus thuringiensis* subspecies *kurstaki* (Btk) (Product Name: Foray 48B Biological Insecticide Aqueous Suspension- (PCP) Registration Number: 24977) in those areas identified on the maps attached as Schedules A and B to this by-law.
  - B. Injection with TreeAzin and mechanical egg mass removal on selected individual trees.

Enacted and passed on May 26, 2017.

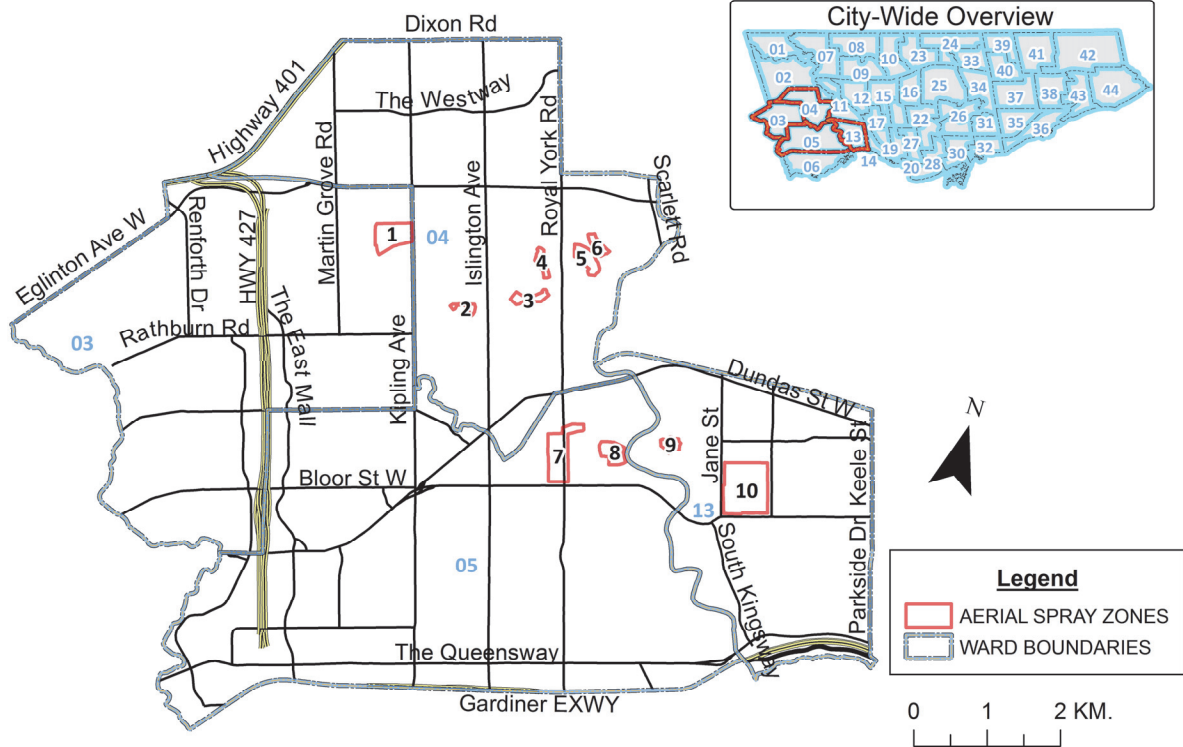

Frances Nunziata,  
Speaker

Ulli S. Watkiss,  
City Clerk

(Seal of the City)
