City's Critical Care Transfer Unit (CCTU) Funding Agreement with Ornge

(May 23, 2007) Report from Chief and General Manager, Toronto Emergency Medical Services

Committee Recommendations

The Community Development and Recreation Committee recommends that:

1. City Council grant authority for the City of Toronto to enter into a funding agreement with Ornge for the provision of critical care transfer unit services in 2007 – 2008 such that transfer payments can begin; and
2. the appropriate City officials be authorized and directed to take the necessary action to give effect thereto.

Financial Impact

There is no financial impact to the approved 2007 Operating budget for Toronto Emergency Medical Services. Financial transfer payments to the City of Toronto in the amount of \$2,855,495 will offset Toronto Emergency Medical Services operating costs for the provision of CCTU services for the fiscal period April 1, 2007 – March 31, 2008.

Summary

In prior years, the Ontario Ministry of Health and Long-Term Care provided funding directly to the City of Toronto for CCTU services. For the fiscal year April 1, 2007 – March 31, 2008, the City of Toronto was informed that the Ministry intended to flow the funding through Ornge – formerly Ontario Air Ambulance Services Inc. Consequently, a funding agreement has been drafted with Ornge in the amount of \$2,855,495. Legal Services provided input and guidance throughout the process.

Based on staff review and consultation, Toronto Emergency Medical Services on behalf of the City of Toronto is seeking authority to sign the funding agreement with Ornge. CCTU funding will begin once the agreement is signed and shall be paid bi-monthly to an account so designated by the City.

In Case of Emergency (ICE) for Cell Phones

(June 18, 2007) Report from Chief and General Manager, Toronto Emergency Medical Services

Summary

At its meeting of June 5, 2007, the Community Development and Recreation Committee had before it a letter and recommendation from Councillor Ootes for the Chiefs of the three emergency services to collaborate and report on how the ICE program can be communicated and promoted to the public in an efficient and economical way.

ICE is a simple program that educates people to store an emergency contact phone number under the common name - ICE. In the event of an emergency, responders can quickly access the patient's emergency contact information. Toronto Emergency Medical Services (TEMS) has initiated ICE using its own multimedia services and public education initiatives. In the future, TEMS will coordinate with Toronto Fire Services and the Toronto Police Service to widen the scope of the ICE program including working with cellular service providers and other stakeholders.

The ICE program fits well with other TEMS education programs such as balcony safety and complements programs such as Cardiac Safe City.
