2007 Water and Wastewater Service Rate and Related Matters

Recommendations

The Budget Committee recommended to the Executive Committee that City Council adopt the following recommendations:

- (1) **with respect to the water and wastewater service rate:**
 - (i) **the water rate and wastewater rates charged to metered consumers be increased, effective March 1, 2007, by 9.0 percent on an annualized basis and as shown in Appendix A (Schedule 1) attached to this report;**
 - (ii) **the water rate and wastewater rate charged to flat rate consumers be set, effective May 1, 2007 for the flat rate accounts in the former City of Etobicoke, and effective July 1, 2007 for the flat rate accounts in the former City of Toronto, at the rates shown in Appendix A (Schedule 2) attached to this report;**
- (2) **with respect to reserve and reserve fund adequacy:**
 - (i) **57 percent of the actual 2006 year-end net operating budget shortfall be transferred from the Wastewater Capital Reserve Fund (XR6004) to the Wastewater Stabilization Reserve (XQ1004);**

- (ii) **43 percent of the actual 2006 year-end net operating budget shortfall be transferred from the Water Capital Reserve Fund (XR6003) to the Water Stabilization Reserve (XQ1003);**
 - (iii) **beginning in 2008, the water rate setting process incorporate an annual contribution of 1 percent of budgeted water user revenue, apportioned as above to the Water and Wastewater Stabilization Reserves, until such time that a minimum combined balance of \$30.0 million is reached;**
- (3) **with respect to funding of land acquisition for source water protection:**
- (i) **the land acquisition contribution policy, specifying that no additional contribution be made to the Land Acquisition Reserve while the Toronto Water Stabilization Reserve is below its target level, be waived for 2007;**
 - (ii) **the withdrawal policy for the Source Water Protection Reserve be amended as follows:**

the amount withdrawn from the reserve for the identified Statement of Purpose shall be based on a matching funding arrangement with the Toronto and Region Conservation Authority (TRCA), commensurate with the existing formula used to derive TRCA's annual municipal operating levy;
 - (iii) **0.25 percent of 2007 revenue from Toronto water rates be reallocated from the Wet Weather Flow Master Plan project in 2007 to the Land Acquisition for Source Water Protection Reserve (XQ1403);**
 - (iv) **the TRCA, in collaboration with its member municipalities, develop a Land Acquisition for Source Water Protection Policy, wherein financial contributions are derived on an annual basis from member municipalities, consistent with the existing formula used to derive TRCA's annual municipal operating levy; and**
 - (v) **the land acquisition for Source Water Protection Reserve contribution and withdrawal policies be reviewed by the Public Works and Infrastructure Committee in 2007 in advance of the Toronto Water's 2008 Rate setting process.**
- (4) **with respect to administrative matters:**
- (i) **Schedule E to Article II of Chapter 849 of the City of Toronto Municipal Code, regarding additional water and sewer charges, be amended as follows:**

- (a) **the returned cheque fee for cheques not honoured by financial institutions for water bill payments be increased from \$25 to \$35 to be consistent with the fees currently charged for returned cheques by Tax and Parking Tags, effective March 1, 2007; and**
 - (b) **the minimum account charge of \$36 per year be eliminated, effective March 1, 2007;**
 - (ii) **Article I of Section 849-14 of the City of Toronto Municipal Code, concerning consumers who discharge to private septic systems, be amended by updating in sub-section ‘F’ the applicable rebate rate to be set at 57 percent of the retail combined water and sewer service rate applicable to the consumer, effective March 1, 2007; and**
- (5) **the appropriate City officials be authorized and directed to take the necessary action to give effect thereto including the introduction of the necessary bills.**

Financial Impact

Financial analysis indicates that the 2007 Toronto Water Operating Budget of \$379.338 million, and the 2007-2011 Capital Plan of \$2,420.135 million net (\$382.598 million cash flow in 2007), will require a water and wastewater rate annualized increase of 9.0 percent commencing on March 1, 2007. Rate increases are also projected at 9.0 percent annually through to 2011, in order to fully fund the capital and operating plans of the program in a sustainable manner from operating revenues and capital-from-current contributions, and without the need for debenturing.

Legislation continues to require that the Water Program be fully funded through the water rate. The City of Toronto’s policy since 1998 is to also fully fund the Wastewater Program through a combined water and wastewater rate. As such, the property tax budget is not impacted by adoption of the recommendations contained in this report.

Due to the delays in the approval of the 2007 rates and in order to achieve a 9 percent annualized revenue increase in 2007, the effective rate increase as recommended above is 10.8 percent. A typical homeowner with metered service will see an increase in their 2007 annual water bill of approximately \$40.00 from \$429.00 in 2006 to \$469.00 in 2007.
