65 Avonhurst Road – Private Tree Removal

(April 11, 2007) report from General Manager, Parks, Forestry and Recreation

Committee Recommendations

The Etobicoke York Community Council submits this matter to Council without recommendation.

Financial Impact

There are no financial implications resulting from the adoption of this report.

Summary

To report on an application for a permit to remove one (1) privately owned 98 centimetre

diameter black walnut tree (*Juglans nigra*) located at 65 Avonhurst Road. This is the second application that has been filed by the owner for the removal of this tree. The application has been made to allow for the construction of a two-storey addition with an attached two-car garage.

A landscape plan has been submitted with the application that shows the planting of nine (9) significantly sized trees to replace the tree in question.

Inspection of the tree by staff revealed that the tree is healthy and in good condition. This tree has a well developed crown with very little deadwood throughout. This tree is part of a large majestic community of trees that contribute to the character of this neighbourhood which is locally known as Islington Village.

Staff are of the opinion that the proposed plans can be adjusted to accommodate the tree in question.

Natural Garden Exemption Request 115 Hadrian Drive

(April 16, 2007) report from Manager, Municipal Licensing and Standards

Committee Decision

The Etobicoke York Community Council granted the Natural Garden Exemption and cancelled the Notice, on the condition that the owner complies with the following recommendations of Parks, Forestry and Recreation on or before June 30, 2007;

1. that an alternate ground cover be used which will grow in conditions of moderate shade and poor soil. It is recommended that the initial planting be quite dense to ensure rapid establishment. Alternatively, adding more herbaceous plants to eliminate bare soil areas which encourage weed development;
2. amend the soil with organic matter such as compost (for alternate ground cover option) after removal of invasive and inappropriate plants. Ideally, an 'Organic Soil' would be established, which is soil comprised of about 20 percent organic matter in the upper one foot;
3. use of an organic mulch spread 38 millimetres to 50 millimetres (1½ inches to 2 inches deep around all plants, such as shredded pine bark which will suppress weeds, help retain moisture in the soil and add valuable nutrients to the soil; and
4. on-going weed removal and pruning of shrub material is recommended in order to comply with the requirement to be "managed".

Monogram Place - Parking Regulation Amendments

(March 23, 2007) report from Director, Transportation Services, Etobicoke York District

Committee Decision

The Etobicoke York Community Council refused the request for an amendment to the parking regulations on Monogram Place.

Financial Impact

No financial impact will result from the adoption of this report.

Summary

This staff report is about a matter for which the community council has delegated authority from City Council to make a final decision.

The purpose of this report is to respond to a request from a business on Monogram Place to

investigate the issue of removing the existing “No Parking Anytime” and two-hour parking limit. To remove the “No Parking Anytime” parking regulation, as requested by staff from Citifinancial, and allow employees to park for long duration (i.e. 8 hours) on the road, would exceed the three-hour limit that is in place across most of this part of the City and could result in increased requests for parking enforcement. This would also encourage visitors to park on the street to avoid parking in the parking lot provided at 2150 Islington Avenue, where there is a charge to park on this property.

Committee Recommendations

The Etobicoke York Community Council recommends that City Council:

1. approve the reduction of the speed limit on Lake Shore Boulevard West between Mimico Creek and Palace Pier Court from 60 km/h to 50 km/h.

Financial Impact

Type of Funding	Source of Funds	Amount

Summary

The purpose of this report is to obtain approval to reduce the speed limit on Lake Shore Boulevard West, between Mimico Creek and Palace Pier Court, from 60 km/h to 50 km/h.

Given the existence of Toronto Transit Commission's (TTC) streetcar tracks on the majority of this section of Lake Shore Boulevard West and the curved road alignment east of the F.G. Gardiner Expressway on-ramp/Brookers Lane, a lower (50 km/h) speed limit is justified and recommended. In addition, the proposed 50 km/h speed limit on Lake Shore Boulevard West between Mimico Creek and Palace Pier Court will provide for a consistent speed limit on this road in the Etobicoke York Community.

Belfield Road and Iron Street - Pedestrian Signals

(March 23, 2007) report from Director, Transportation Services, Etobicoke York District

Committee Recommendations

The Etobicoke York Community Council recommends that City Council:

1. approve installing traffic control signals at Belfield Road and Iron Street.

Financial Impact

Type of Funding	Source of Funds	Amount
Available within the capital works budget	Project No. CTP707-01	\$140,000.00

Summary

The purpose of this report is to obtain approval for the installation of traffic control signals at the intersection of Belfield Road and Iron Street.

The installation of traffic control signals is justified as the Traffic Control Signal warrant requirements are achieved. The installation of traffic control signals will provide safe and convenient access for vehicles and pedestrians, and will not compromise the integrity of the arterial road network. Staff of the Toronto Transit Commission (TTC) have been consulted on this initiative as Belfield Road is a TTC route and have no objection to the new signal installation.

These signals will contain features to assist pedestrians crossing the road. These include, pedestrian signal heads and push buttons, crosswalk lines and pedestrian information signs explaining the operation of these signals.

Reinstatement of On-Street Parking in front of 237 and 239 Park Lawn Road

(May 1, 2007) Member Motion from Councillor Milczyn

Summary

In 2006 the City reconstructed Park Lawn Road from The Queensway north to Ivy Lea Crescent. The road prior to reconstruction was a two-lane road without curbs. The shoulders were extremely wide and paved and allowed for extensive parking.

The two properties at 237 Park Lawn Road and 239 Park Lawn Road are neighbourhood convenience stores which have existed continuously for at least sixty years in each location. The two stores serve a large community stretching from The Queensway up to Bloor Street. On-street parking, within the road allowance, existed at these locations which allowed for quick and convenient parking for store patrons as well as for neighbourhood religious institutions.

With the reconstruction of the road and installation of the curbs some of this parking was eliminated. The road reconstruction is still incomplete. City staff had indicated in November of 2006 that Community Council authority was required to reinstate this parking.

The loss of this parking has had some negative impact on the businesses. Additionally many vehicles still park in this area however they mount the curbs to do so. The situation should be rectified as part of the road reconstruction completion process.
