The purpose of this report is to propose the removal of the “No Standing, 7:00 a.m. to 1:00 p.m., Monday to Friday” prohibitions from Earlington Avenue and Thorndale Avenue.

The current daytime standing prohibitions were approved by City Council in April, 2006, and were introduced to discourage parking generated by construction activities at a condominium site in the area. The construction activities are now complete. It was intended that the daytime standing prohibitions would be removed at the completion of the construction.

Financial Impact

| Type of Funding | Source of Funds | Amount |
|---------------------------------|--|----------|
| Available within current budget | Transportation Services Operating Budget | \$500.00 |

Summary

This staff report is about a matter for which the community council has delegated authority from City Council to make a final decision.

The purpose of this report is to propose the removal of a portion of the existing “No Parking Anytime” regulation on the north side of Blaney Crescent and the installation of a “No Parking,

9:00 a.m. to 6:00 p.m.” regulation on the south side of Blaney Crescent/Picaro Drive.

It is appropriate to install a “No Parking, 9:00 a.m. to 6:00 p.m.” regulation on the south side of Blaney Crescent/Picaro Drive, near Pelican Gate, to prevent motorists from parking in front of the residential homes and limiting the sightline visibility for motorists exiting from area driveways. To accommodate some of the loss of on-street parking, a portion of the existing No Parking Anytime regulation on the north side of Blaney Crescent will be removed. The three hour limit will remain in this unposted area.

Committee Decision

On motion by Councillor Mammoliti, the Etobicoke York Community Council approved:

1. Rescinding the existing “No Parking Anytime” regulation on the north, west and south side of Blaney Crescent between the westerly limit of Pelican Gate and the westerly limit of Petiole Road.
2. Enacting a “No Parking Anytime” regulation on the north, west and south side of Blaney Crescent between a point 60.0 metres west of the westerly limit of Pelican Gate and the westerly limit of Petiole Road.

5. Enacting a “No Parking, 9:00 a.m. to 6:00 p.m.” prohibition on the south side of Picaro Drive between the easterly limit of Blaney Crescent (north intersection) and a point 42.0 east of the easterly limit of Blaney Crescent (north intersection).

(November 27, 2007) Member Motion from Councillor Cesar Palacio

Recommendations

That the Etobicoke York Community Council recommend that, notwithstanding the level of response to the poll, and with implementation scheduling subject to competing priorities,

1. a by-law be enacted authorizing the alteration of sections of the roadway by means of the installation of speed humps on Brandon Avenue between Dufferin Street and Lightbourn Avenue, for traffic calming purposes generally as shown on the attached print Drawing No. 421F - 8610, dated November 2006 ; and
2. the maximum speed limit on Brandon Avenue between Dufferin Street and Lightbourn Avenue, be reduced from forty kilometres per hour to thirty kilometres per hour, coincident with the installation of speed humps.

Summary

In August 29, 2007 a poll was conducted by City staff regarding the installation of speed humps on Brandon Avenue between Dufferin Street and Lightbourn Avenue. Of those that responded 83% were in favour of the humps. Unfortunately although there were a large number of ballots returned it fell short of the required 50%+1 threshold.

Speeding on this street has been a concern for quite some time as it is a major alternate route from Dufferin Street to Lansdowne Avenue.

Committee Decision

On motion by Councillor Palacio, the Etobicoke York Community Council approved the following, notwithstanding the level of response to the poll, and with implementation scheduling subject to competing priorities:

1. That the City Solicitor prepare a by-law to alter the roadway on Brandon Avenue between Dufferin Street and Lightbourn Avenue, for traffic calming purposes generally as shown on Drawing No. 421F - 8610, dated November 2006, attached to the report (March 8, 2007) from the Director, Transportation Services, Etobicoke York District.
2. That Transportation Services take the necessary actions to reduce the speed limit from 40km/h to 30km/h on Brandon Avenue between Dufferin Street and Lightbourn Avenue, when the speed humps are installed.

(November 27, 2007) Member Motion from Councillor Cesar Palacio

Recommendations

That the Etobicoke York Community Council recommend that, notwithstanding the level of response to the poll, and with implementation scheduling subject to competing priorities,

1. a by-law be enacted authorizing the alteration of sections of the roadway by means of the installation of speed humps on Osler Street between Davenport Road and the CPR tracks south of Pelham, for traffic calming purposes generally as shown on the attached print Drawing No. EY07-76, dated April 2007; and
2. the maximum speed limit on Osler Street between Davenport Road and the CPR tracks south of Pelham, be reduced from forty kilometres per hour to thirty kilometres per hour, coincident with the installation of speed humps.

Summary

In September 2007 a poll was conducted by City staff regarding the installation of speed humps on Osler Street between Davenport Road and the CPR tracks south of Pelham Avenue. Of those that responded 93% were in favour of the humps. Unfortunately although there were a large number of ballots returned it fell short of the required 50%+1 threshold.

Speeding on this street has been a concern for quite some time as it is a major alternate route to the congested Keele Street and St. Clair Avenue West; Keele Street and Dundas Street West

intersections.

Committee Decision

On motion by Councillor Palacio, the Etobicoke York Community Council approved the following, notwithstanding the level of response to the poll, and with implementation scheduling subject to competing priorities:

1. That the City Solicitor prepare a by-law to alter sections of the roadway on Osler Street, between Davenport Road and the C.P.R. tracks, just south of Pelham Avenue, for traffic calming purposes, generally as shown on Drawing No. EY07-79 dated April 2007, attached to the report (April 5, 2007) from the Director, Transportation Services, Etobicoke York District.
2. That Transportation Services take the necessary actions to reduce the speed limit from 40 km/h to 30 km/h on Osler Street, between Davenport Road and the CPR tracks, just south of Pelham Avenue when the speed humps are installed.

20 Northcliffe Boulevard - Installation of Disabled Parking Space

(November 27, 2007) Member Motion from Councillor Cesar Palacio

Recommendations

That the Etobicoke York Community Council recommends that, notwithstanding the warrant criteria for the installation of a disabled parking space:

1. a by-law be enacted authorizing the installation of a disabled parking space fronting

Premises No. 20 Northcliffe Boulevard.

Summary

The owner of Premises No. 20 Northcliffe Blvd. is severely disabled and has a valid disabled parking sticker. Her illnesses are terminal. The existing parking for the owner doesn't accommodate the ramp that is required for the owner to enter and leave the vehicle. This is a humanitarian, quality of life issue.

Committee Decision

On motion by Councillor Palacio, the Etobicoke York Community Council approved the following, notwithstanding the warrant criteria for the installation of a disabled person parking space:

1. The installation of an on-street parking space for persons with disabilities fronting premises No. 20 Northcliffe Boulevard.
2. That Transportation Services staff report back to Etobicoke York Community Council in six (6) months on the status of the disabled parking permit.

Front Yard Parking – 199 Rosemount Avenue

(November 27, 2007) Member Motion from Councillor Palacio

Recommendations

1. That Etobicoke York Community Council approve a front yard parking stall at 199 Rosemount Avenue, subject to the following conditions:
 - a. The applicant pays all applicable fees, including the current appeal fee, specified by Chapter 918 of the Toronto Municipal Code.
 - b. That a poll of the surrounding neighbourhood, conducted according to Chapter 918 of the Toronto Municipal Code, shows that the majority of poll respondents favour a front yard parking stall at this location.
 - c. The on-street disabled parking stall situated along the Rosemount Avenue frontage of the subject site is eliminated.
 - d. The on-street parking permit issued to this address is cancelled following construction of the front yard parking stall.
 - e. The front yard parking stall is limited to a maximum width of 2.4m, and the front yard parking stall is surfaced with semipermeable material, such as interlocking stone or ecostone pavers, acceptable to the General Manager.
 - f. The applicant provides funding for the planting of a tree in the neighbourhood, and provides tree protection measures to the satisfaction of the Parks and Recreation Services.
 - g. The applicant satisfies these conditions at no expense to the municipality by November 30, 2008.

Summary

Due to a physical disability, the resident of 199 Rosemount Avenue requests a front yard parking pad. The applicant currently has an on-street disabled parking stall fronting the subject property. The property is not eligible for a disabled front yard parking pad since the site already has access to a rear yard garage from an existing public lane, and installing a 3.66m wide disabled front yard parking pad will require removing an existing tree.

Decision Advice and Other Information

The Etobicoke York Community Council:

1. Deferred consideration of this matter until such time as the applicant submits a formal appeal of Transportation Services' refusal of the application for front yard parking at 199 Rosemount Avenue.
2. Directed the Director, Transportation Services, Etobicoke York District, to report on the appeal at that time.
