

NOTICE OF MOTION
Board of Health

Moved by: Marvin Greenberg

Seconded by: Evadne Wilkinson

The Toronto/East York Local Health Committee recommends that the Toronto Board of Health increase the number of dental chairs available in each existing Toronto Public Health Clinic by one within the years 2007/08 and 2008/09, and sufficient funding for staff to support the additional operation of the clinics be included in the budget. Further, the Toronto/East York Local Health Committee recommends the Toronto Board of Health support the effort of an increase of 1 additional dental chair in each community clinic, and that the funds to cover these costs be requested from the Ministry of Health and Long Term Care.

The Toronto East York Local Health Committee also congratulates the Ontario Dental Association for their support of Dr. Hazel Stewart's proposal.

Date: July 3, 2007
