

In our view, the variances proposed are minor and maintain the general intent of the City's Sign By-Law. Furthermore, Titan Worldwide has spoken with the area Councillor Karen Stints, and the Councillor supports our application for variance. Presently to our knowledge, this sign location has not received a complaint from within the area that it resides.

If permitted, the variances will have little, if any, impact on neighbouring properties, as it is presently a multi coloured building, and the sign itself blends into the existing colour scheme.
