## **ISSUE BACKGROUND**

Transportation Services Division, North York District, was requested by the new owner at 314 Jedburgh Road, to remove the designated on-street parking space for persons with disabilities adjacent to 314 Jedburgh Road.

## **COMMENTS**

The Transportation Services Division receives numerous requests for the installation and removal of on-street parking spaces for persons with disabilities. Some of these requests come directly from members of the public and others are received through the local Councillors' offices.

The installation of designated on-street parking spaces for persons with disabilities is a convenience provided for disabled persons and/or those who transport them, making it easier for them to find available parking as near as possible to their places of residence, reducing the distance that the disabled persons must travel between their homes and vehicles. The designated on-street parking space in front of 314 Jedburgh Road was initially installed in the Spring of 2003.

This division has received notification that the individual for whom the on-street disabled persons' parking space was established on the west side of Jedburgh Road, has since moved away. As a result, this on-street space is no longer being used and as such should be removed.

The timely removal of designated on-street parking spaces for persons with disabilities when these on-street spaces are no longer required is necessary in order to maximize available on-street parking for other residents/motorists.

Councillor Karen Stintz supports the recommendations of this staff report.
