## **Removal of One Private Tree - 10 Dinan Street**

(August 15, 2007) Report from General Manager, Parks, Forestry and Recreation

### **Recommendations**

The General Manager of Parks, Forestry and Recreation recommends that:

1. Council deny the request for a permit to remove one (1) privately-owned tree at 10 Dinan Street.

### **Financial Impact**

There are no financial implications resulting from the adoption of this report.

### **Summary**

The report requests Council's authority to deny the request for removal of one (1) privately-owned 41-centimetre diameter Colorado blue spruce (*Picea pungens*) tree located at the rear of 10 Dinan Street. The application has been made due to concerns expressed by the property owner that the tree is in poor condition.

The spruce tree is healthy and shows no symptoms of cytospora canker, as indicated in the independent Arborist Report submitted with the application. With proper care and maintenance, the tree should continue to provide benefits to the community for years to come. Urban Forestry cannot support removal of this tree.

### **Decision Advice and Other Information**

On motion by Councillor Feldman, the North York Community Council deferred consideration of the report (August 15, 2007) from the General Manager, Parks, Forestry and Recreation, to its next meeting on October 2, 2007.

### **Removal of One Private Tree - 607 Briar Hill Avenue**

(August 15, 2007) Report from General Manager, Parks, Forestry and Recreation

#### **Recommendations**

The General Manager of Parks, Forestry and Recreation recommends that:

1. Council deny the request for a permit to remove one (1) privately owned tree at 607 Briar Hill Avenue.

#### **Financial Impact**

There are no financial implications resulting from the adoption of this report.

#### **Summary**

The report requests Council's authority to deny the request for removal of one (1) privately owned 87.5 centimetre diameter black walnut tree (*Juglans nigra*) located at the rear of 607 Briar Hill Avenue. The application has been made due to concerns expressed by the property owner that the falling walnuts are a hazard to the children.

The tree is a healthy and viable specimen. With proper care and maintenance, the tree should continue to provide benefits to the community for years to come. All trees have some level of maintenance associated with their placement in the landscape. The increased maintenance associated with the fruit from black walnut trees does not justify their removal.

## **York Region Environmental Assessment for Bayview Avenue**

(June 12, 2007) Report from Director, Transportation Infrastructure Management

### **Financial Impact**

There is no financial impact resulting from the receipt of this report beyond what has already been approved in the Transportation Services Division's 2007 budget.

### **Summary**

The Regional Municipal of York (York Region) is currently undertaking a Class Environmental Assessment (Class EA) Study for Bayview Avenue between John Street and Major Mackenzie Drive. This section of Bayview Avenue, which is located directly to the north of Ward 24 entirely within York Region, is identified in their 10 Year Capital Program for widening from its current four lanes to six lanes. The Class EA Study was initiated in 2006 and York Region staff expect to complete the study and report to York Region Council in the fall of 2007.

At the time of the writing of this report, York Region staff were still evaluating alternatives to address transportation deficiencies within this corridor and, as a result, had not identified the technically preferred improvements for Bayview Avenue. However, at its meeting in March 2007, York Region Council adopted, in principle, a policy that capital projects involving the widening of a road from four to six lanes be designed for the purpose of High Occupancy

Vehicle (HOV) lanes. Transportation Services staff will report on the details of York Region staff's recommendations prior to the completion of the Class EA Study.

### **Decision Advice and Other Information**

The North York Community Council received the report (June 12, 2007) from the Director, Transportation Infrastructure Management, for information.

**Technical Amendment to Subsection 64.20-A RM6 (149) of former City of North York Zoning By-law No. 7625 - 1 & 3 Kenton Drive**

(September 10, 2007) Member Motion from Councillor Fillion

**Recommendations**

1. That Council amend North York Zoning By-law No. 7625, Subsection 64.20-A RM6 (149), substantially in accordance with the draft Zoning By-law Amendment attached hereto as Attachment No. 1; and
2. That no further notice be given in respect of the proposed by-law.

**Summary**

By-law No. 78-2007, a by-law to amend former City of North York Zoning By-law No. 7625, as amended, with respect to lands municipally known as 1 and 3 Kenton Drive, was passed by Council on February 5, 6, 7 and 8, 2007 (North York Community Council Item 2.42).

Technical errors have been identified in this By-law that require correction. Passing a correcting by-law is urgent so as not to further delay Site Plan Approval and the issuance of a Building Permit.

The By-law permitted a Residential Care Facility with no more than 48 dwelling rooms, for occupancy by persons having symptoms of Alzheimer disease. A number of built form permissions were amended in order to accommodate development. The By-law was not appealed and came into effect on March 12, 2007.

By-law 78-2007 inadvertently omitted two adjustments to the as-of-right zoning provisions. First, there should be a requirement for a minimum of 400 m<sup>2</sup> of landscape open space. Second, Schedule RM6(149) to the By-law shows the permitted setbacks and at a point on the Bathurst Street frontage, the setback is shown as 2.11 metres, whereas the intended permitted setback was 0.89 metres. This error resulted from plans containing measurements in both metres and feet. City Planning supports these corrections.

Although the exception related to landscaping was omitted from the By-law, the amount of landscaping was correctly described and shown in the Staff Report relating to this matter, and its attachment. City Planning advises that the setback along the Bathurst Street frontage was never an issue for the community and at certain points, is as little as 0.34 metres from the lot line. Given the existing circumstances, a further amendment to North York Zoning By-law No. 7625 to permit a setback of 0.89 metres rather than 2.11 metres and a minimum landscape open space requirement of 400 m<sup>2</sup> is not a significant change from a planning perspective and City Planning, in consultation with the Legal Services Division, is satisfied that these by-law amendments are authorized by the above noted Item.

### Committee Recommendations

On motion by Councillor Filion, the North York Community Council recommended that City Council:

1. amend North York Zoning By-law No. 7625, Subsection 64.20-A RM6 (149), substantially in accordance with the draft Zoning By-law Amendment attached to the Motion submitted by Councillor Filion, as Attachment No. 1; and
2. direct that no further notice be given with respect to the proposed by-law.
