Economic Development Strategies to Retain and Attract Investment to the Scarborough District

(November 13, 2007) Report from Director, Business Development and Retention, Economic Development, Culture & Tourism Division

Financial Impact

There is no financial impact of this report.

Summary

Economic Development Culture and Tourism (EDCT) has been asked to report back on the various investment attraction strategies being currently employed as they relate to the Scarborough District. These strategies can best be described in the following manner.

EDCT is actively promoting and marketing the Scarborough advantage as a leading area for ICI investment. Much of the recent investment which has taken place in Toronto has occurred in Scarborough. It is EDCT's intention to market this good news story and seek to attract more investment.

Secondly staff are focusing on stimulating local growth through expansion of local firms. This will be accomplished by core staff activities such as corporate care, increasing the attractiveness of Toronto's business climate, introducing business-friendly initiatives such as the concierge service.

Finally Economic development staff will be identifying next generation growth opportunities through in depth corporate interviews. The objective of these interviews will be to identify key business lines, with good growth potential, global mandates and supply chain linkages. This then arms our promotion activities to specifically target potential firms who would benefit from a Scarborough location.

Scarborough Community Council deferred consideration of this matter until its meeting of January 15, 2008, for public presentation and debate.

Proposed No Standing Anytime Regulations at 3450 McNicoll Avenue by Owens-Corning’s Driveways

(November 6, 2007) Report from Director, Transportation Services, Scarborough District

Recommendations

Transportation Services, Scarborough District, recommends that Scarborough Community Council request City Council to:

Financial Impact

The financial cost of installing these parking prohibition signs is approximately \$1,000.00. This funding is available in the Transportation Services 2007 Operating Budget, within Cost Centre TP0226.

Summary

This staff report is about a matter for which the Community Council does not have delegated authority from City Council to make a final decision. The presence of an established Toronto Transit Commission route along this road requires that City Council approval be sought in this matter.

(November 13, 2007) Report from Director, Community Planning, Scarborough District

Recommendations

The City Planning Division recommends that:

1. City Council amend the Official Plan substantially in accordance with the draft official plan amendment attached as Attachment 7.
2. City Council amend the zoning by-law for 260 Brimley Road and adjacent lands on the west side of Brimley Road substantially in accordance with the draft zoning by-law amendments attached as Attachments 8 and 9.

 - a. the payment of \$400,000.00 to the City of Toronto with \$200,000.00 to be provided prior to the enactment of the zoning by-law and \$200,000.00 to be provided at the issuance of the first building permit, to be used for parkland improvements within the proposed park in the Midland/St. Clair Community.
5. City Council enact a site plan control by-law to designate 260 Brimley Road as an area subject to site plan control, substantially in accordance with the draft site plan control by-law in Attachment 6.
6. City Council authorize the City Solicitor to make such stylistic and technical changes to the draft site plan control by-law as may be required.
7. City Council recommend to the Chief Planner that the draft plan of subdivision be approved, generally as illustrated on Attachment 2, subject to:

 - b. such revisions to the proposed plan of subdivision or additional or modified conditions as the Chief Planner may deem to be appropriate to address matters arising from the on-going technical review of the development.

Financial Impact

The recommendations in this report have no financial impact.

Summary

The subject lands include 260 Brimley Road and adjacent lands on the west side of Brimley Road. Chilocco Building Corporation is seeking amendments to the Official Plan and zoning by-law and draft plan of subdivision approval to permit residential and open space uses at 260 Brimley Road which is currently designated and zoned to permit employment uses. There is currently a warehouse and distribution centre operated by Nike at 260 Brimley Road. The applications propose 332 residential units, including 45 single-detached dwellings, 92 semi-detached dwellings, and 195 townhouse dwellings and a 0.64 hectare (1.5 acre) open space block for a storm water management facility. To coordinate the development at 260 Brimley Road with adjacent lands, the applicant is proposing amendments to the existing residential and park zoning on adjacent lands owned by Monarch Corporation and the City.

These lands are situated within the area of the former Phase 3 Scarborough Transportation Corridor (STC) land use study, completed in 2004. The vision for this area established through the STC study was to build a complete neighbourhood with the necessary components to make it successful and healthy. The proposed applications contribute to achieving this vision.

The applications propose a mix of housing types and forms to meet a range of housing needs. The road, services and infrastructure are coordinated with the developments approved on adjacent lands. Section 37 community benefits for parkland improvements are proposed. The applications are consistent with the findings of the STC land use review that provided for the development of a residential community within this area over the longer term.

There is currently a warehouse and distribution centre operating at 260 Brimley Road. Although the ultimate use of the lands for residential and open space purposes is desirable, until such time as this industrial use has ceased the residential and open space uses proposed could not be developed. As a result, it would be appropriate to apply holding provisions to the area. This would allow for the continued use of the property as a warehouse and distribution centre as an interim use and ensure the orderly redevelopment of the area over time.

Staff recommends that Council approve the applications to amend the Official Plan and zoning by-law including the use of holding provisions. This report also advises that the Chief Planner may approve the draft plan of subdivision.
