## **ISSUE BACKGROUND**

The property is being redeveloped as a residential condominium that will preserve the two-storey Torno Penthouse, as well as the ground-floor entrance designed for the Penthouse. The owners have entered into a heritage easement agreement with the City and have agreed to the designation of the property under Part IV of the *Ontario Heritage Act*.

## **COMMENTS**

### **Reasons for Designation**

The property at 130 Bloor Street West is worthy of designation under Part IV of the *Ontario Heritage Act* for its cultural heritage value or interest, and meets the criteria for municipal designation prescribed by the Province of Ontario. Located on the north side of Bloor Street West, east of Avenue Road, the two-storey penthouse with a ground-floor entrance was completed in 1960 for Noah Torno, a prominent Toronto businessman and philanthropist. The penthouse is an important example of Modern architecture in Toronto, with the interior features purportedly inspired by the designs of the internationally noted architect, Philip Johnson.

A location map (Attachment No. 1) and photographs (Attachment No. 2) are attached. The Reasons for Designation are attached (Attachment No. 3) and include a statement of the cultural heritage value of the property with a description of its heritage attributes. The Reasons for Designation will be advertised on the City's web page according to the provisions of the City of Toronto Act, and served on the property owner and the Ontario Heritage Trust and included in the designating by-law.

### **Proposal**

The applicant is proposing to construct a six (6) storey roof-top addition on the existing building. Staff have approved the proposed alterations to the heritage building at 130 Bloor Street West as shown on the plans prepared by Quadrangle Architects Limited, which are attached (Attachment No. 4). The applicant has worked with staff to ensure that the addition is sympathetic to the heritage attributes of the Torno Penthouse and its exterior heritage elements. Exterior materials on the new addition have been chosen to be sympathetic with the Torno Penthouse as has the configuration of the new facades.

The interior of the Torno Penthouse will not be altered in a manner that will affect the heritage attributes. The exterior courtyards on the north and south sections of the roof will be reduced in size but maintains the intent of the original design concept. Overall, staff is satisfied with the proposed alterations to the building.

At its meeting on February 5, 6, 7, and 8, 2007, City Council granted authority to enter into a Heritage Easement Agreement for the subject property.
