SUMMARY

The purpose of this report is to obtain approval for the installation of an on-street parking space for persons with disabilities on the east side of Bathurst Street, north of London Street.

RECOMMENDATION

Transportation Services recommends that City Council:

1. approve the installation of an on-street parking space for persons with disabilities on the east side of Bathurst Street, between a point 40.1 metres north of London Street and a point 5.5 metres further north.

ISSUE BACKGROUND

The Transportation Services Division receives numerous requests for the installation and removal of on-street parking spaces for persons with disabilities. Some of these requests come directly from members of the public and others are received through the local Councillors’ offices.

Designated on-street parking spaces for persons with disabilities are a convenience provided for disabled persons and/or those who transport them, making it easier for them to find available parking as near as possible to their place of residence or intended destinations and reducing the distance that the disabled persons must walk. Delays in installing these requested on-street spaces may create hardships for disabled applicants.

COMMENTS

Transportation Services staff have investigated and recommend installing an on-street parking space for persons with disabilities on the east side of Bathurst Street, north of London Street. Bathurst Street is an arterial roadway with an established T.T.C. route. Rush hour regulations are in effect at this location. The applicant holds a valid disabled persons parking permit issued by the Ontario Ministry of Transportation, and the introduction of this designated space will result in the loss of one on-street paid parking space.
