(May 28, 2008) Report from Sue Corke, Deputy City Manager and Bruce Bowes, Chief Corporate Officer

## Summary

This report seeks authority to transfer the City-owned property at 717 Broadview Avenue (the “Property”) to the Toronto Community Housing Corporation (TCHC) to support the creation of affordable housing. Once conveyed, TCHC will be able to proceed to convert the Property, a former long-term care facility, to approximately 62 self-contained affordable rental apartments for low-income seniors and compatible amenity space.

In short, the new uses ensure that a valuable City asset gets a “new lease on life” by providing affordable housing and new community uses in close proximity to public transit and public services.

To successfully convert the Property to affordable housing, the report recommends funding from the City of Toronto’s Capital Revolving Fund and other City incentives, funding from the Canada – Ontario Affordable Housing Program (AHP) and TCHC equity and financing.

The proposed conversion will help the City achieve its environmental objectives by meeting or exceeding the Toronto Green Development Standards with energy efficiency targets above the Model National Energy Code, reducing greenhouse gas emissions and reducing waste destined for landfill sites through the adaptive reuse of the existing building.

Proceeding with this proposal will contribute to Council’s goal of supporting the creation of 1,000 new affordable homes annually and is consistent with its Housing First policy. This initiative is one of the last Toronto developments to be funded under the AHP, as program funding has now been fully committed. Council is currently seeking a renewal of the AHP and other federal and provincial housing and homeless programs.

The report also provides information on the community consultation that Council directed the Affordable Housing Office to undertake and outlines the advice and input obtained from local residents, community organizations and businesses, regarding re-development of the Property as affordable housing.

Moved by Councillor Mammoliti:

“That the Affordable Housing Committee recommend to City Council that should the City be forced to move in a legal direction, the property management at 2350 Finch Avenue West be requested to make every effort to market the remaining units to groups in need of affordable housing, including the Ghanaian community, single mother led families and seniors.”

Moved by Councillor Moscoe:

“That the Affordable Housing Committee request that the Toronto Community Housing Company work with an Advisory Panel established by the “Ghana Amansie Non-Profit Homes” to provide the rental and management advice to TCHC for the project at 2350 Finch Avenue West with the overriding objective that the project is sensitive to the housing and cultural needs of Toronto residents from Ghana.”

**Origin**

(June 2, 2008) Report from Sue Corke, Deputy City Manager

**Summary**

In May 2007 the Affordable Housing Office reported that the affordable housing project (the “Project”) being developed by Ghana Amansie Canadian Non-Profit Homes (“Ghana Amansie”) on city owned land at 2350 Finch Avenue West was in substantial difficulty while still under construction. Council subsequently approved an increase in capital funding to complete the Project and provide staff the authority to intervene and manage the completion of the development.

After a very difficult year the Project, consisting of 48 apartments and four commercial spaces has now been substantially completed. A number of families and individuals moved into their new homes in late April 2008.

In spite of this progress there are a number of financial and governance issues that need immediate attention and remedial action. The extraordinary measures recommended in this Report are a first for the City, which has successfully completed some 50 affordable housing projects.

Additional funding is now required to cover necessary construction costs outside of the original contract, change orders to comply with Building Code requirements, increased construction financing costs, delay claims, and residential and commercial rent-up losses. This report recommends that these funds be provided from the City of Toronto Capital Revolving Fund (CRF) and Development Charges Reserve Fund (DCRF).

To address governance of the Project, City staff request authority to allow Ghana Amansie to assign its lease and funding agreements to Toronto Community Housing Corporation (“TCHC”). Alternatively, the report seeks authority for the City to pursue any legal remedies it may have under those agreements, to acquire possession and control of the Project in order to transfer it to TCHC. Either course of action, will secure the Project under the control of the city’s housing agency, an experienced development/management group.

Approval of these actions will ensure that badly needed affordable housing is provided and the building is ap
