1d Capital Variance Report for the Nine-month Period Ended September 30, 2008

Origin

(November 6, 2008) Report from Acting Deputy City Manager and Chief Financial Officer

Summary

The purpose of this report is to provide the City of Toronto Capital Variance Report for the nine-month period ended September 30, 2008, and projected actual expenditures to December 31, 2008. Further, the report recommends adjustments to the 2008 Council Approved Capital Budget in order to ensure effective delivery of the City's capital program.

Capital expenditures for Tax Supported Programs during the nine months period ended September 30, 2008 totalled \$783.0million, representing 37.7 percent of the 2008 Approved Capital Budget of \$1.911 billion (see Appendix 1). City Operations spent \$277.4 million or 30.6 percent of the 2008 Approved Capital Budget of \$906.2 million; while Agencies, Boards and Commissions spent \$505.7 million or 43.1 percent of their collective 2008 Approved Capital Budget of \$1.2 billion. Rate Supported Programs spent \$167.7 million or 38.4 percent of the 2008 Approved Capital Budget of \$436.8 million. The above spending levels are consistent with prior years' performance (40.5 percent in 2007, 37.6 percent in 2006). It is noted that capital project activities tend to be concentrated in the latter half of the year; therefore, capital spending rates will accelerate during the last quarter of the year in accordance with capital project plans and schedules.

As shown in Appendix 1, projected expenditures to year-end are estimated at \$1.949 billion or 77.5 percent of the total 2008 Approved Capital Budget of \$2.515 billion. Tax Supported Programs estimate spending of 78.4 percent, while Rate Supported Programs estimate spending of 73.2 percent of their respective 2008 Approved Capital Budget by year-end. Projected under-expenditures to year-end are primarily attributed to unanticipated delays in construction start-up; challenges in hiring qualified staff; unanticipated legal and environmental issues; reduced funding support from the Province on cost-shared projects; and the need to revise design plans.

Summary

This report recommends that Council endorse a strategy to redevelop the St. Lawrence Market North property into a multi-storey, multi-purpose facility that would contribute to the historic St. Lawrence neighbourhood as a destination place, seven days a week. The existing building would be replaced with a 4 storey building and a 250-space underground parking garage (see

Attachment 1).

In order to start the strategy, this report also seeks approval for the Chief Corporate Officer to proceed with a two stage design competition which is the first step in implementing the redevelopment strategy. The competition would be administered by a professional advisor and a steering committee.

Final approval of the redevelopment strategy will be sought upon completion of the design competition and finalization of the business case.

Operating Variance Report for the Nine-month Period Ended September 30, 2008

Committee Recommendations

The Budget Committee recommended to the Executive Committee that:

1. City Council approve an expenditure increase of \$0.300 million in the 2008 Non-Program Operating Budget funded from the Arbitration and Legal Awards Reserve to

enable the City Solicitor to pay court orders and legal settlement faster and more efficiently.

- 2 City Council approve the technical adjustments detailed in Appendix D of the report to amend the 2008 Council Approved Operating Budget between Programs with no Net Budget impact in order to ensure accurate reporting and financial accountability.

Origin

(November 6, 2008) Report from Acting Deputy City Manager and Chief Financial Officer

Summary

The purpose of this report is to provide Council with the City of Toronto Operating Variance for the nine-month period ended September 30, 2008, together with operating variance projections for the year ending December 31, 2008; and to obtain Council's approval for amendments to the City of Toronto Operating Budget between Programs to ensure accurate reporting and financial accountability with no increase to the 2008 Council Approved Net Operating Budget.

At the end of the nine-month period ended September 30, 2008, actual net expenditures were under budget by \$12.528 million or 0.5 per cent of the 2008 Operating Budget. Projections to year-end indicate that the 2008 Council Approved Net Operating Budget will be under-spent by \$6.882 million or 0.2 per cent. As indicated in Appendix A, City Operations project a favourable variance at year-end of \$4.657 million primarily due to under-expenditures in various City Programs including Toronto Employment and Social Services, Office of the Treasurer, and Shelter, Support and Housing Administration. These under-expenditures are partially offset by significant over-expenditures in Transportation Services because of higher than budgeted snow removal costs and increases in new winter maintenance and salt contracts to be incurred in the fourth quarter.

Agencies, Boards and Commissions (ABCs) collectively project an unfavourable variance at year-end of \$5.705 million net as a result of increased employee benefit costs, higher than expected overtime expenses, increased snow removal costs due to higher than normal snowfall in early 2008, as well as passenger revenue loss during the 2-day transit strike in April all attributed to Toronto Transit Commission (TTC) – Conventional Services. Corporate Accounts will be under-spent by \$7.930 million attributed to delays in issuing new debt given uncertain capital market conditions resulting in lower than budgeted debt charges of \$5.000 million; higher than budgeted interest, dividend and investment earnings of \$4.746 million, and higher than expected revenue of \$1.810 million generated from off-street and on-street parking facilities by Toronto Parking Authority. These favourable variances will be partially offset by higher than planned vacancy rebates and tax deficiencies.

(November 14, 2008) Report from Acting Deputy City Manager and Chief Financial Officer

Summary

As requested by the Executive Committee at its meeting on November 10, 2008, this report is to accompany the report (EX26.53) from the Chair, Toronto Police Services Board on the entitled Toronto Police Service - Transfer of Capital Funds (In-car Camera Capital Project) with respect to the Operating and Capital Budget impacts of this request.

The Toronto Police Services Board submitted to Executive Committee a report entitled, (EX26.53) Toronto Police Service - Transfer of Capital Funds (In-car Camera Capital Project), identifying the transfer of \$1,000,000 in 2008 Operating Budget surplus to the \$2,300,000 in approved 2008 cash flows for the In-car Camera capital project. The report also requests an additional transfer of \$600,000 from the Computer Assisted Scheduling of Courts capital project, increasing the scope of the In-car Camera capital project from a total project cost of \$8,562,000 for 300 cameras to \$10,162,000 for 460 cameras.

The procedure for accommodating a change in scope for a capital project for all City Divisions, Agencies, Boards and Commissions is to request of Council a reallocation of approved capital funds or request an increase in funding through the Capital Budget process.
