Front Yard Parking - 10 Harshaw Avenue

(June 12, 2008) Report from Director, Transportation Services, Etobicoke York District

Recommendations

Transportation Services recommends that:

1. Etobicoke York Community Council refuse the application.

Financial Impact

There are no financial implications resulting from adopting this report.

Summary

This staff report is about a matter for which the Etobicoke York Community Council has delegated authority from City Council to make a final decision.

The purpose of this report is to inform Etobicoke York Community Council on an application for front yard parking at 10 Harshaw Avenue. This application is an appeal and is scheduled as a deputation item.

The owner of 10 Harshaw Avenue submitted an application for front yard parking, but was advised that the property is not eligible for front yard parking since the property is located on the same side of the street as on-street parking permits. The applicant submitted an appeal and a request for an exemption from the City of Toronto Municipal Code, Chapter 918 “Parking on Residential Front Yards and Boulevards”, to permit front yard parking at this location.

Staff cannot recommend a front yard parking pad at this location since it does not meet the requirements of Chapter 918 of the Toronto Municipal Code. In addition, creating a curb cut to access a front yard parking pad at this location will eliminate one on-street parking permit stall. Since Harshaw Avenue is already both fully subscribed and wait-listed with respect to on-street parking permits, introducing front yard parking at this property requires that we cancel one existing on-street parking permit.

If Community Council finds merit in this proposal, it could be approved subject to the conditions described in the “Comments” section of this report.

Speakers

Mr. Joseph Janoscik

Committee Decision

The Etobicoke York Community Council:

1. Refused the application for front yard parking at 10 Harshaw Avenue.

(June 12, 2008) Report from Director, Transportation Services, Etobicoke York District

Recommendations

1. Etobicoke York Community Council refuse the application.

Financial Impact

There are no financial implications resulting from adopting this report.

Summary

This staff report is about a matter for which the Etobicoke York Community Council has delegated authority from City Council to make a final decision.

The purpose of this report is to inform Etobicoke York Community Council on an application for front yard parking at 57 Brookside Avenue. This application is an appeal and is scheduled as a deputation item.

The owner of 57 Brookside Avenue submitted an application for front yard parking, but was advised that the property is not eligible for front yard parking due to insufficient landscaped open space and the presence of on-street parking permits on Brookside Avenue. The applicant submitted an appeal and a request for an exemption from the City of Toronto Municipal Code, Chapter 918 "Parking on Residential Front Yards and Boulevards" to permit front yard parking at this location.

Staff cannot recommend a front yard parking pad at this location since it does not meet the requirements of Chapter 918 of the Toronto Municipal Code; however, if Community Council finds merit in this proposal, it could be approved subject to the conditions described in the "Comments" section of this report.

Speakers

Bill Praamsma

Committee Decision

The Etobicoke York Community Council approved the application for front yard parking at 57 Brookside Avenue, subject to the following conditions:

4. The existing on-street parking permit issued to this address is cancelled immediately following construction of the front yard parking pad.

Financial Impact

The reports recommended refusal of a proposal to permit a Place of Worship on a temporary basis at 1736 Weston Road.

6a 1736 Weston Road - Rezoning Application - Further Supplementary Report

(January 24, 2008) Report from Director, Community Planning, Etobicoke York District

Recommendations

The City Planning Division recommends that:

1. City Council refuse the applicant's request to revise the original approval conditions to permit the introduction of the Bill to rezone 1736 Weston Road.
2. City Council authorize City Planning staff to close the application as the conditions to the original approval have been outstanding for several years.
3. City Council request Municipal Licensing and Standards to take any necessary action in regard to continued non-compliance with the Zoning By-law.

Financial Impact

The recommendations in this report have no financial impact.

Summary

A rezoning application to permit a Place of Worship use at 1736 Weston Road was approved on a temporary basis by City Council in June 2003, subject to conditions being fulfilled within a six-month period, prior to the introduction of the Bill to City Council.

After two and a half years of inaction to fulfil the conditions of approval, a request was filed from the applicant to modify a condition of the original approval provision among which included requiring off-site Parking Licence Agreements to be registered on title.

In the Supplementary Report by Community Planning, dated December 22, 2006, to Etobicoke York Community Council, staff recommended refusal of the modified conditions as there was an insufficient amount of on-site and off-site parking to comply with the zoning by-law parking requirements and the lease agreements secured by the applicant for off-site parking on private lands were not supported by City staff.

This matter was deferred by Community Council in January 2007 for a period of six months in order for the applicant to complete additional requirements. It is now before Community Council for reconsideration.

Notwithstanding the submission by the applicant of revised parking lease agreements and additional material in support of the applicant's opinion of a sufficient supply and availability of off-site parking for the place of worship, refusal of the proposal to revise the approval conditions for the enactment of a temporary Zoning By-law continues to be recommended by City staff.

The refusal recommendation is based on an insufficient number of surplus off-site parking spaces provided on donor sites, and unacceptable licence agreements that would place the enforcement onus on the City to cease the place of worship and repeal any zoning to permit the church use, should the Parking License Agreements be terminated.

6b 1736 Weston Road - Supplementary Report - Zoning Application

(December 22, 2006) Report from Director, Community Planning, Etobicoke York District

Recommendations

The City Planning Division recommends that:

1. City Council refuse the applicant's proposal to revise the approved conditions to permit introduction of the Bill to rezone 1736 Weston Road to permit a Place of Worship on a temporary basis for a period not to exceed one year;
2. City Council authorize City Planning staff to close the application on this matter as the conditions to the original approval have been outstanding for several years; and
3. City Council request Municipal Licensing and Standards to take any necessary action in regard to continued non-compliance with the Zoning By-law.

Financial Impact

There are no financial implications resulting from the adoption of this report.

Summary

A rezoning application to permit a place of worship use at 1736 Weston Road was approved by City Council in June 2003, subject to a number of conditions, to be satisfied within a six month period prior to introduction of the Bill to City Council. The conditions were not fulfilled and Municipal Licensing and Standards started prosecution proceedings because the Place of Worship had occupied the premises and continued operations prior to obtaining the necessary approvals.

After two and one half years of inaction in satisfying the conditions of approval a request from the applicant to modify a condition of the original approval of the application relating to the provision of parking for the proposal was reported by the Director, Community Planning (April 25, 2006) to Etobicoke York Community Council. The report's refusal recommendation was adopted but City Council in July 2006 referred the clause back to Etobicoke York Community Council for further consideration based on Parking Licence Agreements for 48 off-site spaces that were recently secured by Grace Restoration Ministries (the applicant and owner).

Notwithstanding the additional parking secured by the Licence Agreements, refusal of the proposal to revise the approval conditions continues to be recommended because there are insufficient total off-site surplus parking spaces to account for the number of spaces required by the proposed zoning by-law. Furthermore, the onus to cease the Place of Worship and repeal any zoning to permit the church use should the Parking Licence Agreements be terminated

would lie with the City.

South Kingsway and The Queensway Interchange – Transit, Cycling, Pedestrian and Urban Design Enhancements

(June 16, 2008) Report from Director, Transportation Services, Etobicoke York District

Recommendations

Transportation Services recommends that Toronto City Council approve:

1. The re-configuration of the ramps in the north-east quadrant of the interchange, generally as shown on Drawing No. P-2603-041.
2. The relocation and widening of the eastbound and westbound streetcar loading platforms on The Queensway in the vicinity of the South Kingsway generally as shown on Drawing No. P-2603-041.
3. The installation of new pedestrian activated traffic control signals to accommodate transit riders and to safety facilitate crossing of The Queensway as shown on Drawing No. P-2603-041.

4. The installation of stop signs at the intersections of the ramps in the north-west and south-west quadrants, as shown on Drawing No. P-2603-041.
5. The introduction of the necessary bills to authorize the alterations, signals and signs described in this report.

Financial Impact

Funds to cover the cost of the overall Queensway rehabilitation project from Claude Avenue to the South Kingsway were included in the Transportation Services 2005 and 2006 Capital Budgets and the bulk of the work on the eastbound and westbound lanes has been completed. The planned work for the final phase at The Queensway/South Kingsway intersection has been deferred since 2006 pending the finalization of the design.

The Budget Committee, at its meeting of June 17, 2008, recommended without amendment, a report from the General Manager of Transportation Services, to reallocate amongst others, funds for the road and sidewalk components of the work. City Council will be considering this reallocation at its meeting of July 15 and 16, 2008.

Funds to cover the cost of the various components of the project relating to streetscaping, tree planting, landscaping and historical elements are available in City Planning Account Nos. CUR042-01-01 and CUR055-01-01.

Summary

The purpose of this report is to recommend improvements to the South Kingsway and The Queensway interchange to enhance the safety of transit, cycling and pedestrian users and improve the emerging urban environment.

These improvements are being advanced to respond to changing travel demands in and through the immediate area and to acknowledge the changes of adjacent land use by improving the public realm. The changes can be made without significantly compromising the integrity and level of service of the ramp connections. Generally, they involve relocating the transit platforms to a more amenable and accessible location, the installation of pedestrian activated traffic control signals, the realignment, augmentation and enhancement of the local sidewalk network, the provision of enhanced street and pedestrian scale lighting and the provision of inclusion of urban design and landscaping features, heritage elements and new trees.

As the Toronto Transit Commission operates The Queensway exclusive streetcar service through this area, TTC staff participated in the development and refinement of the proposed improvements and are in agreement with the plans.

The purpose of this report is to present the recommendations arising from ongoing discussions with the residents of The Kingsway Neighbourhood which mitigate concerns raised by residents of the neighbourhood as whole, with respect to the installation of twelve (12) speed humps on The Kingsway between Bloor Street West and Government Road.

The recommendations were reached through an extensive public consultation process which included the creation of a Residents Working Group and involves the installation of four (4) speed humps and the modification and improvement of three intersections on The Kingsway, including Usher Avenue, Kingsgrove Boulevard and Kingsway Crescent. In conjunction with the speed hump installation, the speed limit on the sections of roads affected will be reduced from 40 km/h to 30 km/h.

(June 18, 2008) Report from Director, Community Planning, Etobicoke York District

Recommendations

July 7, 2008 Etobicoke York Community Council seeking authority to appear at the Ontario Municipal Board to oppose the demolitions

Financial Impact

The recommendations in this report have no financial impact.

Summary

On March 2, 2006, demolition control permit applications were made to demolish 13 houses at: 1844, 1846, 1848, 1850, 1852 and 1854 Bloor Street West; 6, 8, 10, 12 and 14 Oakmount Road; and 35 and 37 Pacific Avenue. No building permit application or redevelopment proposal to replace the buildings to be demolished has been submitted.

In accordance with By-law No.1009-2006 (former City of Toronto Municipal Code, Chapter 14, Article 1, Demolition Control), the demolition permit applications are submitted to you for consideration and recommendation to City Council. Council may refuse the demolition permit applications, or grant permission to demolish the buildings and include conditions attached to the permits.

Community Council has considered previous staff reports related to the proposed demolitions, but has deferred its decision. On November 16, 2007, the owner filed an appeal with the Ontario Municipal Board, citing the “City of Toronto Council’s failure to approve applications to demolish residential dwellings located on these 13 lots pursuant to Section 33(4) of the Planning Act...”

The Ontario Municipal Board convened a pre-hearing on April 11, 2008. A further pre-hearing is scheduled for August 5th, and the hearing is scheduled for October 21st – 24th. Since staff requires Council direction to establish a position on these matters, we will submit a report directly to Community Council seeking authority to appear at the Ontario Municipal Board to oppose the demolitions.

Committee Recommendations

The Etobicoke York Community Council recommends that:

1. City Council refuse the applications to demolish the buildings on the subject site and that a copy of Council’s decision be forwarded to the Ontario Municipal Board.
2. City Council authorize the City Solicitor and appropriate City staff to attend before the Ontario Municipal Board in support of the refusal of these applications, and in support of the imposition of the conditions contained in Attachment ‘4’ being imposed in the event the Board allows the appeals.
3. Should City Council choose to approve these applications:
 - a. such approval be granted subject to the conditions contained in Attachment ‘4’; and

1050 The Queensway – Payment-in-lieu of Parking

(June 24, 2008) Report from Director, Transportation Services, Etobicoke York District

Recommendations

Transportation Services recommends that:

1. Council exempt the applicant at 1050 The Queensway from the site specific Bylaw No. 454-2005 (OMB) parking requirement of three parking stalls, subject to a \$15,000.00 payment-in-lieu of parking.
2. The applicant signs a payment-in-lieu of parking agreement with the City, to the satisfaction of the City Solicitor.

Financial Impact

The City of Toronto will receive \$15,000.00 plus a \$300.00 application processing fee. This money will go to the Toronto Parking Authority's parking reserve fund.

Summary

This report seeks Council's approval to exempt Queensway Plaza Inc. from the parking requirement in site specific Bylaw No. 454-2005 (OMB) to provide three additional parking stalls. Instead of accommodating the parking on-site, the applicant requests a payment-in-lieu of parking that will pay the City \$15,000.00.

The parking exemption is appropriate because the shortfall in stalls will not have a significant impact on parking conditions in the area.

Section 40 of the Planning Act grants Council the authority to approve payment-in-lieu of parking. This application has been made pursuant to the City's payment-in-lieu of parking policy adopted in July 2004.

Committee Recommendations

The Etobicoke York Community Council recommends that:

1. Council exempt the applicant at 1050 The Queensway from the site specific Bylaw No. 454-2005 (OMB) parking requirement of three parking stalls, subject to a \$15,000.00 payment-in-lieu of parking.
2. The applicant signs a payment-in-lieu of parking agreement with the City, to the satisfaction of the City Solicitor.

The building received official Heritage Designation on March 30, 1982.
