EXISTING STREET FOOD VENDOR MENU EXPANSION PILOT PROJECT PARAMETERS

Changes to Regulation 562 allow street food vendors to expand their menu beyond the current offering of hot dogs and sausages. A pilot project will assess the impact of allowing an expansion to their menu.

1. Up to 15 existing hot dog/sausage vendors will be permitted to participate.
2. Existing vendors will apply to participate in the pilot.
3. Applicants will be requested to identify the additional food items to be sold.
4. Food items will be restricted to the following:
 - a. Pre-packaged fruits and vegetables using only vinaigrette dips
 - b. Whole fruits and vegetables, including corn on the cob
 - c. Pre-packaged fruit salad
 - d. Bagels with individual serving containers of butter, margarine, peanut butter or jam
 - e. Pre-packaged nuts and seeds
 - f. Pre-packaged salads containing only vegetables and/or fruits with all dressings to be pre-packaged and not requiring refrigeration
 - g. Pre-packaged Tabbouleh salad & pita bread
 - h. Soups
 - i. Pre-cooked veggie burgers
 - j. Coffees and teas
5. Vendors will be selected based upon the following criteria:
 - a. Proposed menu expansion
 - b. Willingness to provide post pilot feedback
 - c. Willingness to post compliance signage
 - d. Agreement to be in a fixed location (for inspection purposes)
 - e. Successful completion of the Certified Food Handler course
 - f. Current compliance with all City by-laws
 - g. History of compliance with respect to food safety
6. Pilot vendors will be selected to achieve a distribution of 5% of the existing vendors located within the boundaries of each former local municipality. Where more vendors meet the criteria than required to attain a 5% sample base, a lottery system will be used to select the required number of vendors, while maintaining the requirement of including a cross-section of foods and geographic locations.
