222 Bremner Boulevard - Partial Repeal and Amendment of Designating By-law

(March 14, 2008) Report from Director, Policy and Research, City Planning Division

Recommendations

The City Planning Division recommends that:

1. City Council partially repeal City of Toronto By-law No. 1996-0385, designating the property at 222 Bremner Boulevard under Part IV, Section 29 of the Ontario Heritage Act, to remove the references to the portions of the site legally described as Plan 64R-13541, Parts 2 to 9, from Schedules “A” and “C”.
2. City Council amend City of Toronto By-law No. 1996-0385 to remove reference to the Machine Shop Annex from the Reasons for Designation that form Schedule “B” of the designating by-law.

3. If there are no objections to the proposed partial repeal and amendment of the designating by-law in accordance with Sections 30.1(6) and 31(5) of the Ontario Heritage Act, the solicitor be authorized to introduce the Bills in Council.
4. If there are objections in accordance with Sections 30.1(6) and 31(5) of the Ontario Heritage Act, the Clerk be directed to refer the proposed partial repeal and amendment of the designating by-law to the Conservation Review Board.

Financial Impact

There are no financial implications resulting from the adoption of this report. The public Notices of the partial repeal of the designating by-law will be advertised on the City's web site according to the provisions of the City of Toronto Act.

Summary

This report recommends that City Council partially repeal and amend City of Toronto By-law 1996-0385, designating the property at 222 Bremner Boulevard under Part IV, Section 29 of the Ontario Heritage Act, to remove the portion of the site known as the Hydro Option Lands from the legal description and remove reference to the Machine Shop Annex from the Reasons for Designation.

As the result of a Hydro Purchase Option Agreement dated October 5, 1992, the City of Toronto has a legal obligation to transfer the Hydro Option Lands to Hydro One as the location for a new electrical facility. Because the heritage by-law designating the CPR John Street Roundhouse complex includes part of the Hydro Option Lands with the Machine Shop Annex that is attached to the Roundhouse, the by-law requires partial repeal and amending to unencumber the portion of the site slated for the transformer station.

Committee Recommendations

On motion by Jennifer Rieger, the Toronto Preservation Board recommended to the Toronto and East York Community Council that:

1. City Council partially repeal City of Toronto By-law No. 1996-0385, designating the property at 222 Bremner Boulevard under Part IV, Section 29 of the Ontario Heritage Act, to remove the references to the portions of the site legally described as Plan 64R-13541, Parts 2 to 9, from Schedules "A" and "C".
2. City Council amend City of Toronto By-law No. 1996-0385 to remove reference to the Machine Shop Annex from the Reasons for Designation that form Schedule "B" of the designating by-law.
3. If there are no objections to the proposed partial repeal and amendment of the designating by-law in accordance with Sections 30.1(6) and 31(5) of the Ontario Heritage Act, the solicitor be authorized to introduce the Bills in Council.
4. If there are objections in accordance with Sections 30.1(6) and 31(5) of the Ontario Heritage Act, the Clerk be directed to refer the proposed partial repeal and amendment of the designating by-law to the Conservation Review Board.

Financial Impact

Summary

The applicant is proposing a 48-storey residential building with a two-storey mixed use podium that incorporates portions of the existing heritage building. Due to overriding geotechnical considerations, the existing heritage building will be dismantled and reconstructed as part of the project and the reconstruction will act as a façade for the podium for the new building.

The proposal represents the best available solution to resolving various heritage, planning and technical issues affecting the heritage components of the development. Although dismantling and reconstructing the heritage façade is not an acceptable strategy in most cases, the proposed conservation strategy balances a loss of heritage authenticity against potential substantial damage during the period of construction.

The purpose of this report is to outline and seek approval for the proposed alterations and to obtain the authority of the City of Toronto to enter into a Heritage Easement Agreement.

Speakers

Edwin Rowse, ERA Architects Inc.
