## Planning and Growth Management Committee

<b>Meeting No.</b>	13	<b>Contact</b>	Merle MacDonald, Committee Administrator
<b>Meeting Date</b>	Wednesday, February 13, 2008	<b>Phone</b>	416-392-7340
<b>Start Time</b>	9:30 AM	<b>E-mail</b>	pgmc@toronto.ca
<b>Location</b>	Committee Room 1, City Hall		

---

Planning and Growth Management Committee		
Councillor Norman Kelly (Chair) Councillor Peter Milczyn (Vice-Chair)	Councillor Frank Di Giorgio Councillor John Filion	Councillor Karen Stintz Councillor Adam Vaughan

**Members of Council and Staff:** Please keep this agenda and the accompanying material until the City Council meeting dealing with these matters has ended. **The City Clerk's Office will not provide additional copies.**

**Special Assistance for Members of the Public:** City staff can arrange for special assistance with some advance notice. If you need special assistance, please call 416-392-8013, TTY 416-338-0889 or e-mail [pgmc@toronto.ca](mailto:pgmc@toronto.ca).

**Closed Meeting Requirements:** If the Planning and Growth Management Committee wants to meet in closed session (privately), a member of the committee must make a motion to do so and give the reason why the Committee has to meet privately. (City of Toronto Act, 2006)

**Notice to people writing or making presentations to the Planning and Growth Management Committee:** The City of Toronto Act, 2006 and the City of Toronto Municipal Code authorize the City of Toronto to collect any personal information in your communication or presentation to City Council or its committees.

The City collects this information to enable it to make informed decisions on the relevant issue(s). If you are submitting letters, faxes, e-mails, presentations or other communications to the City, you should be aware that your name and the fact that you communicated with the City will become part of the public record and will appear on the City's website. The City will also make your communication and any personal information in it – such as your postal address, telephone number or e-mail address – available to the public, unless you expressly request the City to remove it.

The City videotapes committee and community council meetings. If you make a presentation to a committee or community council, the City will be videotaping you and City staff may make the video tapes available to the public.

If you want to learn more about why and how the City collects your information, write to the City Clerk's Office, City Hall, 100 Queen Street West, Toronto ON M5H 2N2 or by calling 416-392-7340.

**Proposed Zoning By-law Amendment to Permit Renewable Energy Devices and Cogeneration Devices and allow for the Distribution of that Energy***Public Meeting*

(January 31, 2008) Report from Chief Planner and Executive Director, City Planning Division

**Recommendations**

The Chief Planner and Executive Director of the City Planning Division recommends that Council:

1. enact the Renewable Energy Zoning By-law for the City of Toronto substantially in accordance with the draft zoning by-law identified as Attachment No. 1

**Financial Impact**

These recommendations will have no financial impact beyond what has already been approved in the current year's budget.

**Summary**

The purpose of this report is to recommend adoption of a stand-alone city-wide zoning by-law to permit renewable energy devices and co-generation energy devices in all zones of the City, subject to certain regulations, and to permit the distribution of energy from those devices into a distribution network.

The City's Official Plan supports the use of renewable energy devices as part of its intent to improve air quality, reduce greenhouse gas emissions and reduce electricity demand. The Official Plan's intent in this regard is also consistent with the City's initiatives for the Climate Change, Clean Air and Sustainable Energy Action Plan.

**Background Information**

## **Supplementary Report - Proposed Protocol for the Installation of Telecommunication Towers**

**(Continuation of Public Meeting started on January 10, 2008 – PG12.7)**

(January 28, 2008) Report from Chief Planner and Executive Director, City Planning Division

### **Recommendations**

The Chief Planner and Executive Director, City Planning Division recommends that Council:

1. approve the amended City of Toronto Tower and Antenna Protocol attached to this report as Attachment 1.

### **Financial Impact**

The financial impact of the telecommunication review protocol was discussed in the Staff Report dated, December 12, 2007.

### **Summary**

At its meeting of January 10, 2008, the Planning and Growth Management Committee referred a report on Telecommunication Towers and motions by Councillor Filion and Councillor Ainslie to staff for consultation with representatives of the telecommunications industry. The Committee directed staff to report back to the February 13, 2008 meeting of the Committee.

Staff have met with the telecommunications industry and recommend that some modifications be made to the City's draft protocol for the review of telecommunication towers. The modifications address the majority of the telecommunications industry's concerns, but maintain appropriate controls and public consultation requirements.

### **Background Information**

Supplementary Report - Proposed Protocol for the Installation of Telecommunication Towers (<http://www.toronto.ca/legdocs/mmis/2008/pg/bgrd/backgroundfile-10457.pdf>)

## **2a Proposed Protocol for the Installation of Telecommunications Towers and Comments on Industry Canada's Draft Client Procedure Circular**

(December 12, 2007) Report from Chief Planner and Executive Director, City Planning Division

### **Recommendations**

The Chief Planner and Executive Director, City Planning Division recommends that Council:

1. Approve the City of Toronto Telecommunication Tower and Antenna Protocol attached to this report as Attachment 1.

2. Direct that the protocol come into effect 30 days after the date of Council approval.
3. Direct the Chief Planner and Executive Director, City Planning to review the protocol in two years' time and report back to the Planning and Growth Management Committee on any issues arising from the review.
4. Enact a by-law in a form required by the City solicitor to amend Chapter 441, Fees, to include application fees for the processing of applications under the City of Toronto Telecommunication Tower and Antenna Protocol in the amounts as set out in the body of this report.
5. Request the City Clerk to:
  - a. Forward a copy of this report and the attached protocol to Industry Canada for its information.
  - b. Forward a copy of this report and the attached protocol to the Federation of Canadian Municipalities and representatives of the telecommunication industry for their information.

### **Financial Impact**

Staff currently estimates that the annual number of new cellular towers on an ongoing basis is expected to be approximately 10 per annum. However, Industry Canada's new regulations may encourage Telecommunications providers to modify their proposals so that they will be exempt from municipal review. This may result in a lower number of applications.

If approved, this application fee could result in additional revenues of \$20,000 annually, based on the estimation of 10 applications per year. City Planning's 2009 Operating Budget submission will include revenue adjustments based on application activity in 2008.

Operating costs associated with the implementation of the City's Telecommunications Protocol will be dependent on the number of applicants, and will be absorbed within the Program's 2008 Operating Budget. Staff will monitor the impact of the Protocol on the operations of City Planning and report back as part of the 2009 operating budget process on any need for additional resources to be funded through the anticipated revenue stream.

The Deputy City Manager and Chief Financial Officer has reviewed this report and agrees with the financial impact information.

### **Summary**

This report provides recommendations on a finalized protocol for the Development of Telecommunication Towers and Antennas.

Under the Radiocommunications Act, Industry Canada has the final authority to approve the location of telecommunication towers and antennae. Industry Canada has a process for taking municipal and public concerns into consideration during their review of telecommunications proposals. While other Canadian municipalities have developed protocols to review

telecommunication proposals, the City of Toronto has not developed a protocol.

The proposed City of Toronto Telecommunication Tower and Antenna Protocol establishes a harmonized City-wide process and criteria for evaluating telecommunication proposals. The protocol includes criteria and guidelines: to minimize the number of new telecommunication towers; to appropriately site and locate new towers where necessary; and to establish a public consultation process.

The Protocol will ensure that the installations which might be a concern to the public undergo both a City review and public consultation. It addresses the desire to review telecommunications towers and antennas within the context of the City's limited jurisdiction.

**City Planning Division – Response to Request for Information on Work Program and Planning Process**

**(Deferred from January 10, 2008 (PG12.5) and November 29, 2007 (PG11.4))**

(November 14, 2007) Report from Chief Planner and Executive Director, City Planning Division

**Recommendations**

The City Planning Division recommends that:

1. The Chief Planner and Executive Director, City Planning, be directed to provide a status report for the end of 2008 that updates the progress made in addressing the challenges facing the delivery of City Planning services identified in this report.

**Financial Impact**

The recommendations in this report have no financial impact.

**Summary**

On September 5, 2007, the Planning and Growth Management Committee requested the Chief Planner to report on information respecting the City Planning Division's work program, including involvement in community consultation meetings and time spent on Ontario Municipal Board (OMB) hearings. The Committee also requested information on consultations that have taken place with community groups and other stakeholders respecting operational changes to improve the planning process.

The Planning Division's work program can be summarized under three main service areas: (i) Development Review, Decision and Implementation; (ii) Civic and Community Improvements; and (iii) City Building and Policy Development. Each of these service areas is briefly described in the text of the report in terms of work underway and forecast for 2008, with greater detail provided in Attachments 1, 2 and 3 that also list future challenges and opportunities where more planning resources may be needed. Broadly speaking, these three service areas span the range of City planning activities from policy formulation to implementation and enhancement. The workloads in these service areas are influenced by a number of factors such as the rate and magnitude of development applications, new Council policy directions, report requests and changes to provincial plans and planning legislation. The open-ended nature of the planning process, with its emphasis on consultation and rights of appeal, adds to the difficulties of workload forecasting.

Other sections of the report discuss the planning process as it relates to the engagement of the public and other stakeholders in the development review process; the involvement of planning staff in OMB hearings, and recent efforts to enhance the meaningfulness of the public consultation process through better information, outreach and education.

**Background Information**

### **3a City Planning Division - Further Information on Studies and Organization**

(January 29, 2008) Report from Chief Planner and Executive Director, City Planning Division

#### **Recommendations**

The City Planning Division recommends that:

1. The Planning and Growth Management Committee consider the information provided in this report and Attachments “A” and “B” in conjunction with an earlier report from the Chief Planner and Executive Director entitled “Response to Request for Information on Work Program and Planning Process” (November 14, 2007) that was deferred by the Committee at its meeting of November 29, 2007.

#### **Financial Impact**

The recommendation of this report has no financial impact.

#### **Summary**

This report provides additional information regarding the Planning Division’s work program and organizational structure. The focus is on listing the various planning studies that are currently underway, targeted for 2008 or pending. To fully appreciate the depth and breadth of the Planning Division’s work program and the planning process, this report should be read in conjunction with the Chief Planner and Executive Director’s earlier, more comprehensive report entitled “Response to Request for Information on Work Program and Planning Process” (November 14, 2007).

### **Guidelines for Identifying and Processing Planning Matters of City-wide Interest and Cross-Boundary Issues**

(January 28, 2008) Report from Chief Planner and Executive Director, City Planning Division

#### **Recommendations**

The City Planning Division recommends that:

1. City Council adopt the modified Guidelines contained in Attachment 1 which set out a process for dealing with City-wide planning matters.

### **Financial Impact**

There are no financial implications resulting from the adoption of this report.

### **Summary**

Planning and Growth Management Committee at its meeting on January 10, 2008 deferred consideration of the report entitled ‘Guidelines for Identifying and Processing Planning Matters of City-wide Interest and Cross-Boundary Issues’ to enable staff to give consideration to the submissions received on this item at the meeting and to report back to the Committee at its meeting on February 13, 2008.

Following review of the submissions received on this item and further consultation with ratepayer representatives staff recommend modifications to the Guidelines to address some of the concerns raised by the ratepayers. The attached Guidelines (see Attachment 1) have been revised to reflect recommended changes resulting from these discussions.

### **Background Information**

Guidelines for Identifying ... City-Wide Interest and Cross-Boundary Issues  
<http://www.toronto.ca/legdocs/mmis/2008/pg/bgrd/backgroundfile-10461.pdf>

## **4a Guidelines for Identifying and Processing Planning Matters of City-wide Interest and Cross-Boundary Issues**

(December 13, 2007) Report from Chief Planner and Executive Director, City Planning Division

### **Recommendations**

The City Planning Division recommends that:

1. City Council adopt the guidelines contained in Attachment 1 which sets out a process for dealing with City-wide planning matters.

### **Financial Impact**

There are no financial implications resulting from the adoption of this report.

### **Summary**

Planning and Growth Management Committee at its meeting on May 31, 2007 deferred consideration of the report entitled ‘Guidelines for Identifying and Processing Planning Matters of City-wide Interest and Cross-Boundary Issues’ to enable the Chair and the Chief Planner and Executive Director of City Planning to consult with Committee members to create a solution which protects overall City Planning interests, without unnecessarily removing jurisdiction from Community Councils.

Following consultation with Committee members, Staff has modified the ‘Guidelines for

Identifying and Processing Planning Matters of City-wide Interest and Cross-Boundary Issues' to address the singular concern raised by some Committee members regarding whether Planning and Growth Management Committee or Community Councils would be responsible for dealing with the creation of a new Secondary Plan or amending the boundaries of an existing Secondary Plan. The attached guidelines (see Attachment 1) have been revised to reflect recommended changes resulting from these discussions.

### **Background Information**

Guidelines for Identifying and Processing Planning Matters of City-wide Interest and Cross-Boundary Issues

### **Adoption of The Standards and Guidelines for the Conservation of Historic Places in Canada**

(January 15, 2008) Report from Chief Planner and Executive Director, City Planning Division

### **Recommendations**

The City Planning Division recommends that:

1. Council adopt The Standards and Guidelines for the Conservation of Historic Places in Canada as the official document guiding planning, stewardship and conservation approach for all listed and designated heritage resources within the City of Toronto.
2. The Standards and Guidelines for the Conservation of Historic Places in Canada be updated as new content is made available by the Parks Canada Agency or the Historic Places Initiative and its partners.

### **Financial Impact**

There is no financial impact associated with the adoption of these recommendations.

## Summary

This report recommends the adoption of The Standards and Guidelines for the Conservation of Historic Places in Canada as the official standards and guidelines for planning, stewardship and conservation of heritage resources within the City of Toronto.

The Standards and Guidelines for the Conservation of Historic Places in Canada is a benchmark document to guide the conservation approach to recognized heritage resources. Adopted standards and guidelines ensure consistent stewardship and transparent decision making for advisory groups, council, developers and staff.

## Background Information

Adoption of The Standards and Guidelines for the Conservation of Historic Places in Canada (<http://www.toronto.ca/legdocs/mmis/2008/pg/bgrd/backgroundfile-10072.pdf>)

## 5a Adoption of the Standards and Guidelines for the Conservation of Historic Places in Canada

(January 25, 2008) Report from Toronto Preservation Board

## Recommendations

The Toronto Preservation Board recommended to the Planning and Growth Management Committee that:

1. Council adopt the Standards and Guidelines for the Conservation of Historic Places in Canada as the official document guiding planning, stewardship and conservation approach for all listed and designated heritage resources within the City of Toronto.
2. The Standards and Guidelines for the Conservation of Historic Places in Canada be updated as new content is made available by the Parks Canada Agency or the Historic Places Initiative and its partners.

## Summary

Advising of the action taken by the Toronto Preservation Board on a report dated January 15, 2008 from the Chief Planner and Executive Director, Planning Division.

## 2008 Avenue Studies

(January 25, 2008) Report from Chief Planner and Executive Director, City Planning Division

### Recommendations

The City Planning Division recommends that:

1. The following areas be endorsed by Council for study as Avenues in 2008:
  - a. Yonge Street from Cummer Avenue to Steeles Avenue, and
  - b. Bloor Street West from Dundas Street West to Keele Street.

### Financial Impact

The recommendations will have no financial impact beyond what has already been approved in the City Planning Division's 2008 Capital Budget.

### Summary

This report reviews the outstanding Avenue Study requests and recommends two Avenues for study in 2008: Yonge Street from Cummer Avenue to Steeles Avenue and Bloor Street West from Dundas Street West to Keele Street.

## Sheppard Corridor Study - Final Report

(January 25, 2008) Report from Chief Planner and Executive Director, City Planning Division

### Recommendations

The City Planning Division recommends that:

1. This report and the findings of the Sheppard Corridor Study be forwarded to the Toronto Transit Commission (TTC) for consideration during the Transit City, Sheppard East Light Rail Line Class Environmental Assessment Study.

### Financial Impact

The recommendations in this report have no financial impact.

## Summary

The Sheppard Corridor Study Area extends from Don Mills Road to McCowan Road. Study findings have identified growth related opportunities within both the short and long term. If realized, these opportunities will result in significant new growth within the Corridor. Recent development approvals alone will add over 6,900 new dwelling units to the Corridor and over a quarter of a million square metres of additional non-residential gross floor area.

The Toronto Transit City - Light Rail Plan, which was announced in early 2007, proposes a network of new light rail transit (LRT) lines in the City, including the Sheppard East Corridor. The Toronto Transit Commission (TTC) has endorsed this plan as the basis and priority for rapid transit expansion in the City.

The Transit City - Sheppard East LRT Corridor, which extends from the Sheppard Subway Don Mills Station east to Meadowvale Road, has been identified by the TTC as a first priority project in order to qualify for available Provincial funding.

In light of the Transit City Plan and recent commitments to fund rapid transit projects, it is important to report on the Sheppard Corridor Study, Phase 2 work at this time in order for these findings to inform and contribute to the required Environmental Assessment (EA) process.

Both the Sheppard Corridor Study and the Transit City Plan acknowledge the important role Sheppard Avenue plays in providing a critical link between the Scarborough and North York Centres and to the City's broader transit network. The realization of an improved Sheppard transit corridor, sooner rather than later, is an important City building initiative which will serve to enhance and strengthen the Corridor's current role.

Staff recommend that the findings of the Sheppard Corridor Study be forwarded to the TTC for consideration during the upcoming transit EA process and that interested parties and the public be advised of the status of the Sheppard Corridor Study by the means identified in this report.

## Request for Direction Report - Official Plan Amendment and Zoning By-law Amendment Applications 16 Lesmill Road and 840 to 842 York Mills Road

(January 30, 2008) Report from Chief Planner and Executive Director, City Planning Division

## Recommendations

The City Planning Division recommends that:

1. City Council refuse the proposed Zoning By-law amendment application.
2. City Council authorize the City Solicitor and appropriate staff to attend the Ontario Municipal Board hearing to oppose the Official Plan and Zoning By-law amendment applications.

### **Financial Impact**

The recommendations in this report have no financial impact.

### **Summary**

Applications have been submitted to amend the Toronto Official Plan and North York Zoning By-law to permit the development of a commercial centre consisting of retail uses including a Home Depot, commercial and restaurant uses on the site at 16 Lesmill Road and 840 to 842 York Mills Road. The proposed gross floor area is 27,339 square metres.

Home Depot has appealed their Official Plan amendment application to the Ontario Municipal Board due to the City's failure to make a decision on the application. They have indicated that they will also be appealing their zoning by-law amendment application to the OMB.

The property is 5.67 ha in size and is located west of the corner of Lesmill Road and York Mills Road. Existing uses on the site include an industrial operation and warehouse.

The proposal to permit major retail uses in an employment area does not conform to the Province's Growth Plan for the Greater Golden Horseshoe. This report recommends refusal of the proposal. Approval of the application without first undertaking a municipal comprehensive review which addresses the policies and conversion criteria of the Growth Plan would be contrary to the Places to Grow Act 2005 which requires that all municipal planning decisions conform with a Growth Plan.

## Video Display Equipped Signs at Drive-through Facilities, Car Wash Establishments and Service Stations

(January 29, 2008) Report from Chief Building Official and Executive Director, Toronto Building

### Recommendations

The Chief Building Official and Executive Director, Toronto Building recommends that:

1. Staff be directed to consult with representatives of the restaurant and petroleum industries regarding the addition of a proposed Article V, “Video Equipped Signs at Drive-Through facilities, Car Wash establishments and Service Stations” to amend Municipal Code Chapter 693, Signs that would provide:
  - a. Where a sign is permitted in association with a drive-through facility or car wash establishment that sign may contain or consist entirely of a video display screen. The video display screen cannot exceed *the lesser of* 0.2 square metres or 100 percent of the permitted sign area.
  - b. Where service stations and gas bars are permitted by the applicable Zoning Bylaws, signs including video display screens to a maximum total area of 0.2 square metres are excluded from permit requirements, where the signs are directly mounted upon or connected to a gas pump. Only one sign is permitted per face of the gasoline pump.
2. Staff bring a draft by-law forward to a public meeting of the Planning and Growth Management Committee on April 10, 2008 to add Article V, “Video Equipped Signs at Drive-Through Facilities, Car Wash Establishments and Service Stations” to amend Municipal Code Chapter 693, Signs.

### Financial Impact

There are no financial impacts from the adoption of the recommendations contained in this report.

### Summary

This report responds to Council direction to report to Planning and Growth Management Committee on potential amendments to the sign bylaws to allow video display equipped signs at drive-through facilities.

The purpose of this report is to seek Council's direction to proceed with the preparation of an additional article to Municipal Code Chapter 693, Signs. The article would permit video display screens associated with drive-through facilities, car wash establishments and service stations, with certain restrictions on size. The proposed bylaw amendment would, however, exempt video display units integrated with gasoline pumps from the requirement to obtain a permit when they conform to certain specified criteria.

The City Solicitor, the Executive Director, Municipal Licensing and Standards, the Chief Planner and Executive Director of City Planning and the General Manager of Transportation Services were consulted in the preparation of this report.

### **Requiring As-Built Surveys for Large Projects**

(January 28, 2008) Report from Chief Building Official and Executive Director, Toronto Building

### **Financial Impact**

The report will have no financial impact beyond what has already been approved in the current year's budget.

### **Summary**

This report responds to Council's request that the Chief Building Official and Executive Director report to Planning and Growth Management Committee on the feasibility of requiring builders to provide as-built survey for large scale projects.

The report advises that Toronto Building is proceeding with the development of a procedure to require as-built surveys for large scale projects.

No further direction from City Council is required on this matter as the authority to require the survey is provided by the Building Code Act, 1992.
