Summary

These applications were made on or after January 1, 2007 and are subject to the new provisions of the Planning Act and the City of Toronto Act, 2006.

The applications for rezoning and draft plan of subdivision approval propose a total of 33 lots, comprised of twenty five (25) single detached residential lots and eight (8) freehold townhouse lots on a new public road and public lane at 6440 - 6452 Kingston Road and the southerly portions of 4035 to 4041 Ellesmere Road.

The proposed land use is consistent with the Neighbourhoods policies of the Official Plan, and Site Specific Policy No. 6 of the Highland Creek Community Secondary Plan. The proposal is in keeping with the Tertiary Plan which forms part of the Highland Creek Secondary Plan and which ensures continuity of roads and a compatible lotting pattern. The development which includes lots for both single detached dwellings and townhouses is compatible with surrounding development.

This report reviews and recommends approval of the application to amend the zoning by-law which will allow for the appropriate residential development on the subject lands and recommends the site plan control by-law be amended to include the lands on which the townhouses are proposed.

This report also advises that the Chief Planner may approve the draft plan of subdivision subject to the conditions contained in Attachment 7.
