Proposed Speed Limit Reduction and Other Safety Issues – Northwest Quadrant Sandhurst Circle at Albert Campbell Collegiate Institute

(April 16, 2008) Report from Director, Transportation Services, Scarborough District

Recommendations

Transportation Services, Scarborough District, recommends that Scarborough Community Council:

1. Adopt a 40 kilometre per hour speed limit on the subject portion of Sandhurst Circle, as identified in Appendix 1 of this report.
2. Traffic control signals not be installed on Sandhurst Circle at the existing site of the pedestrian crossover by 1500 Sandhurst Circle between Albert Campbell Collegiate Institute and Woodside Square Mall at this time.

3. Amend the appropriate by-law(s) accordingly.

Financial Impact

The financial cost of installing these speed limit signs is approximately \$1,000.00. The funding for these signs is available in the Transportation Services 2008 Operating Budget, within Cost Centre TP0226.

Summary

This staff report is about a matter for which the Community Council has delegated authority from City Council to make a final decision.

The purpose of this report is to obtain approval for the installation of a reduced speed limit along the northwest quadrant of Sandhurst Circle that has its north limit at the west side of McCowan Road and its south limit at the north side of Finch Avenue East. Along this section of Sandhurst Circle a 40 kilometre per hour (km/h) speed limit is technically justified and recommended.

Traffic studies reveal that the existing pedestrian crossover, located along side 1500 Sandhurst Circle between Albert Campbell Collegiate Institute and Wood Square Mall, is operating in a safe and efficient manner and, continues to be a suitable location for a pedestrian crossover. Studies to determine if traffic control signals would be appropriate at this location indicate that the technical warrants for the installation of traffic control signals are not met.

A status report on the use of Community Safety Zones is also provided for information.

Proposed Parking Prohibitions on Bobmar Road

(April 10, 2008) Report from Director, Transportation Services, Scarborough District

Recommendations

Transportation Services, Scarborough District, recommends that Scarborough Community Council:

1. Rescind the regulations, as identified in Appendix 1 of this report.
2. Adopt the regulations, as identified in Appendices 2 and 3 of this report.
3. Amend the appropriate by-laws accordingly.

Financial Impact

The financial cost of installing these parking prohibition signs is approximately \$2,350.00. Funding for the signs is available in the Transportation Services 2008 Operating Budget, within Cost Centre TP0226.

Summary

This staff report is about a matter for which the Community Council has delegated authority from City Council to make a final decision.

This report responds to a concern about the lack of parking regulations on the east side of Bobmar Road, north of Highland Creek Public School. Staff has received a petition from the residents of Bobmar Road confirming that the majority of respondents support “No Parking” 7:00 a.m. to 6:00 p.m., Monday to Friday, restrictions. Due to the proximity to the University of Toronto (Scarborough Campus), student parking on this roadway, as well as other adjacent roadways, has been problematic for area residents. The potential for parking abuses along this segment of Bobmar Road has been confirmed by staff.

To mitigate on-street parking problems, changes to parking regulations along Bobmar Road, as outlined in this report, are recommended at this time.

Committee Decision

On motion by Councillor Moeser, Scarborough Community Council:

1. Rescinded the regulations, as identified in Appendix 1 of this report.

2. Adopted the regulations, as identified in Appendices 2 and 3 of this report.
3. Directed that the appropriate by-laws be amended accordingly.

Proposed Minor Street Stop Signs - Homestead Road Area - Skelding Court and Public Lane

(April 10, 2008) Report from Director, Transportation Services, Scarborough District

Recommendations

Transportation Services, Scarborough District, recommends that Scarborough Community Council:

1. Adopt the “Compulsory Stops”, “Heavy Truck Prohibition” and “No Parking” regulations as identified in Appendix 1 of this report.
2. Amend the appropriate by-laws accordingly.

Financial Impact

The financial cost of installing the respective traffic and parking signs is approximately \$4,000.00. Funds associated with the installation of the signage will be provided by the developer which constructed this new public street and lane as outlined in the Subdivision Agreement with the City.

Summary

This staff report is about a matter for which the Community Council has delegated authority from City Council to make a final decision.

This report describes the need to install minor street stop signs at two uncontrolled intersections in a new development in the West Hill Neighbourhood.

The subdivision is located south of Lawrence Avenue East and east of Morningside Avenue. It is recommended that minor street stop signs be installed at the two subject intersections to clearly define the right-of-way and to regulate traffic flow, along with “No Exit” signs at each roadway entrance.

It is also recommended that “No Parking Anytime” signs be installed along Skelding Court and within the cul-de-sac. This will assist motorists in manoeuvring safely through the cul-de-sac and prevent parked vehicles from blocking the roadway.

In addition, this report recommends a heavy truck prohibition on the two new roads. This measure is being recommended as a standard practice for new local residential roadways.

Committee Decision

On motion by Councillor Moeser, Scarborough Community Council:

1. Adopted the “Compulsory Stops”, “Heavy Truck Prohibition” and “No Parking” regulations, as identified in Appendix 1 of this report.
2. Directed that the appropriate by-laws be amended accordingly.
