Donation from Maple Leaf Sports and Entertainment for Arenas and Outdoor Ice Rinks

Committee Recommendations

The Budget Committee recommended to the Executive Committee that:

1. City Council’s approval be granted to accept a donation of \$600,000 from Maple Leaf Sports and Entertainment for arena and rink refurbishment and enhancement projects in 2009 in accordance with the “Policy on Donations to the City for Community Benefits”.
2. A new Rink and Arena Refurbishment Project be created in the 2009 Parks, Forestry and Recreation Capital Budget with revenues and expenses of \$550,000, funded from a donation received from Maple Leaf Sports and Entertainment and that approval be given to receive the funds into this project.
3. The 2009 Parks, Forestry and Recreation Operating Budget be amended to include support of \$50,000 for rink and arena improvements through volunteer events fully funded by a donation from Maple Leaf Sports and Entertainment.
4. City Council’s approval be granted to receive donations of \$500,000 per year in 2010, 2011, and 2012, and to receive a donation of \$200,000 in 2013, for arena and rink refurbishment and enhancement projects in accordance with the “Policy on Donations to the City for Community Benefits”.
5. The General Manager of Parks, Forestry and Recreation include projects and activities to reflect the donations from Maple Leaf Sports and Entertainment in the Capital and Operating Budget submissions over the 2010-2013 periods.
6. Authority be granted to the General Manager of Parks, Forestry and Recreation to negotiate and enter into a four (4) to ten (10) year Agreement commencing July 1, 2009, with Maple Leaf Sports and Entertainment to execute arena and outdoor rink refurbishment projects in each of the first four contract years and sustain project recognition on-site for up to an additional six (6) years at each project location, all in a

form and content satisfactory to the City Solicitor.

Origin

(February 27, 2009) Report from General Manager of Parks, Forestry and Recreation

Summary

This report requests that Toronto City Council accept a donation of \$600,000 from Maple Leaf Sports and Entertainment (MLSE) for 2009 arena and outdoor artificial ice rink (AIR) refurbishment and enhancement projects, and to request Council authority to allow Parks, Forestry and Recreation (PFR) to negotiate and enter into an Agreement commencing July 1, 2009, between the City of Toronto and MLSE for further rink and arena refurbishment and enhancement projects.

On January 29, 2009, MLSE approved a proposal for them to enter into an agreement with the City of Toronto to contribute \$500,000 per fiscal year between July 1, 2009 and June 30, 2013, and an additional \$300,000 for Spring/Summer 2009 to support the refurbishment or enhancement of City of Toronto Artificial Ice Rinks (AIRs) and arenas. The total value of the contribution is \$2,300,000.

A list of priority projects would be developed by Parks, Forestry and Recreation (PFR) based on the capital State of Good Repair (SOGR), capital project list, and facility audit reports on an annual basis. MLSE would short list the options based on their criteria and preferences. The project list would be finalized in cooperation between MLSE and PFR.

A community event would be held at each facility to celebrate the upgrades and to engage the community in their newly refurbished space. These events may include a facility beautification component, including painting, building flower boxes, replacing bulletin boards and other minor improvements. These events will be fully funded through the donation from MLSE, administered through the PFR operating budget.

All capital projects would be fully funded by the donation from MLSE.

According to an amendment to the “Policy on Donations to the City for Community Benefits,” City Council approval is required to accept donations from any individual or organization whose cumulative value over the course of the fiscal year exceeds \$50,000. The value of this donation is \$600,000 in 2009, \$500,000 each year from 2010 to 2012, and \$200,000 in 2013.

Amendment of the Capital Plan for Green Lane Landfill to Accelerate Cell Excavation and Base Construction

Committee Recommendations

The Budget Committee recommended to the Executive Committee that:

1. City Council approve an amendment to the 10-Year Capital Plan and Forecast for Solid Waste Management Services as indicated in Appendix A of the report.
2. Subject to the adoption of Recommendation 1, new commitments totalling \$7.5 million including \$0.5 million in 2009 and \$7.0 million in 2010, funded from the Waste Management Reserve Fund, be approved to advance cell development at Green Lane (Capital Account CSW007-05-05 - Cell Excavation and Base Construction).

Origin

(March 2, 2009) Report from General Manager, Solid Waste Management Services

Summary

This report requests authority to reallocate funding to the 2009 Approved Green Lane Landfill Capital Budget within the Approved Green Lane Landfill 10-Year Capital Plan & Forecast and requests approval to commit the cashflow in 2009 and 2010 to more efficiently construct the required cells in order to accommodate the receipt of Toronto's waste beginning January 1, 2011. There is no net impact on the approved 10-Year Capital Plan & Forecast as a result of rescheduling this work.

Long-Term Care System Challenges and Opportunities for the City of Toronto

Committee Recommendations

The Budget Committee recommended to the Executive Committee that:

1. City Council authorize the General Manager of the Long-Term Care Homes and Services Division to initiate an application for the redevelopment of Kipling Acres once the Ministry of Health and Long-Term Care invites applications in early 2009.
2. City Council approve a one-time withdrawal of \$2.0 million from the Homes for the Aged (HFA) Capital Reserve Fund to enable the Long-Term Care Homes and Services Division to begin planning and architectural design work on the Kipling Acres Redevelopment Project.
3. City Council amend the 2009 Approved Capital Budget for Long-Term Care Homes and Services to include a new project entitled “Redevelopment of Kipling Acres” with a 2009 cash flow of \$2.0 million funded from HFA Capital Reserve Fund.
4. City Council authorize the General Manager of the Long-Term Care Homes and Services Division to continue to advocate for expanded funding for the City’s homemakers and nurses services program, based on demonstrated community need.
5. City Council express to the Ministry of Health and Long-Term Care the urgent need to increase funding for long-term care homes as soon as is possible, based on the ever increasing acuity and complexity of care being provided in long-term care homes.
6. The appropriate City officials be authorized and directed to take the necessary action to give effect thereto.

Toronto Police Service: 2009 - 2013 Capital Program Transfers

Committee Recommendations

The Budget Committee recommended to the Executive Committee that:

1. City Council approve a transfer of \$697,000 in 2009 from the Automated Fuel Management System project to the Renovation of the Intelligence and Special Investigation Facility Capital project.
2. City Council approve a transfer of \$487,000 in 2009 from the purchase of the Explosive Containment Vessel project to the Renovation of the Intelligence and Special Investigation Facility Capital project.
3. The Toronto Police Services request for the reinstatement of \$0.697 million in funding for the Automated Fuel Management System and \$0.487 million in funding for the Explosive Containment Vessel during the 2010 Capital Budget process be accommodated within the Services' established debt affordability guideline for 2010.

Origin

(January 28, 2009) Report from Chair, Toronto Police Services Board

Summary

The purpose of this report is to request the City of Toronto Budget Committee to approve two transfers within the Toronto Police Service's 2009 – 2013 capital program.

State-of-Good-Repair Backlog for Road Repairs

Decision Advice and Other Information

The Budget Committee deferred the item until its meeting on April 24, 2009, in order that notice be given to allow Committee discussion.

Origin

(February 4, 2009) Report from General Manager, Transportation Services

Summary

The Ontario Municipal CAO's Benchmarking Initiative (OMBI), has determined that the condition of Toronto's roads, overall, are rated "good to very good" and that compared to their member municipalities across the Province are ranked the highest. Nevertheless, the Transportation Services state-of-good repair backlog currently sits at \$320 million, which is comprised of work that is past due for road repairs in the amount of \$175 million, for bridges in the amount of \$55 million and for the westerly section of the Gardiner Expressway in the amount of \$90 million. What is often misinterpreted by many, however, is that even though the total quantity of work making up the backlog has remained relatively stable over the last several years, the cost to rehabilitate individual assets has increased by the cost of inflation. Therefore, one needs to distinguish between the physical extent of backlog assets against the associated cost. Moreover, individual locations that make up the backlog listing are continually changing as infrastructure that has been rehabilitated is replaced with new locations.

Also important to recognize is that there is an upcoming wave of infrastructure built in the 1950's and 1960's, as the suburbs expanded, that is coming due for rehabilitation, which is exclusive of the defined level of backlog today. To deal with this concern, it is necessary to consider two alternative funding sources: the reallocation of approved funds in-year or the pursuit of third party assistance. In this regard, candidate ready-to-go projects have been identified that are currently beyond the City's current fiscal capacity to implement this year but could be advanced on an as needed basis. Consideration could be given to advance various local resurfacing projects, bridges, traffic plant improvements and major roadways. Various improvements were initially deferred in order to accommodate corporate and legislative priorities including those governing the abatement of basement flooding problems as well as those pertaining to the replacement of lead water services. The advancement of any combination of the above noted works will generate much needed construction jobs and many associated spin-off jobs. To put the matter into some context, the approval of an additional \$30 million has the capacity to create 125 new jobs. Of course, the advancement of any infusion or reallocation of funding for any of the aforementioned work activity would have to be weighed against other council mandated initiatives/undertakings including, but not limited to, recently announced work for the Revitalization of Union Station and the Transit City needs for Sheppard, Finch and Eglinton Avenues.

Scope Change: Inclusion of T1 Motor Casting Replacement in T1 Subway Car Overhaul

Decision Advice and Other Information

The Budget Committee:

1. forwarded the item to the Executive Committee without recommendation; and
2. requested the Toronto Transit Commission to report directly to the Executive Committee for its meeting on April 7, 2009, with an offset of \$2-Million within the TTC 2009 Approved Budget.

Facilities and Real Estate – 2009 Capital Budget Adjustments

Committee Recommendations

The Budget Committee recommended to the Executive Committee that:

1. City Council authorize the reallocation of funds in the 2009 approved Facilities and Real Estate Capital Budget in the amount of \$1.856 million, as illustrated in Schedule “A” of the report, with zero gross and net impact.

Origin

(March 6, 2009) Report from Chief Corporate Officer

Summary

This report requests Council’s authority to amend the Facilities and Real Estate Division’s (F&RE) 2009 approved capital budget by reallocating funding within the budget and by adding one new subproject to the F&RE capital budget. The adjustment of funds will have a zero net impact corporately and will better align 2009 cash flows with F&RE’s program requirements.
