Re: November 10 North York Community Council Meeting
#NY29.27 4700 Keele Street
Inclusion on the Heritage Inventory and
Intention to Designate

Good morning - I am representing Geoff Kettel, Chair of the North York Community Preservation Panel who has a scheduled conflict and is unable to attend.

The panel fully supports the staff recommendation. We are delighted that the previously "listed" buildings are being moved forward to designation and are encouraged to note that a number of the modern buildings are now being added to the City's Inventory of Heritage Properties.

We sincerely hope that staff continue "listing" other buildings of architectural significance and interest on the Keele Campus.

Respectfully submitted.

Edith Geduld
Past Chair
North York Community Preservation Panel
