Section Total	Preserve all structures on the site.	Preserve through restoration, the Silo Structures, Head House	Preserve a symbolic representation of the silo structures.	Preserve a symbolic tiered representation of the silo structures	Total Demolition of the Structures on the Site.	Senior Management mandate to open public access to Ireland Park
Section Total	Preserve all structures on the site.  Heritage Preservation	Preserve through restoration, the Silo Structures, Head House and Marine Legs and	Preserve a symbolic representation of the silo structures.	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.	Total Demolition of the Structures on the Site.  Heritage Preservation	Senior Management mandate to open public access to Ireland Park along the east elevation
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to	Preserve a symbolic representation of the silo structures.  Preserve a square cluster	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in
Section Total	Preserve all structures on the site.  Heritage Preservation	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed	Senior Management mandate to open public access to Ireland Park along the east elevation
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation Services fully supports	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all other structures on the	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a small portion of the silos	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.  Interm measure to meet 2009 mandate until
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation Services fully supports	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all other structures on the site. All nine silos to be	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a small portion of the silos extending above grade,	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.  Interm measure to meet 2009 mandate until Council decides on future
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation Services fully supports	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all other structures on the site. All nine silos to be restored.	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a small portion of the silos extending above grade, cascading down towards	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.  Interm measure to meet 2009 mandate until Council decides on future course of action with the
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation Services fully supports	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all other structures on the site. All nine silos to be restored.	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a small portion of the silos extending above grade,	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009. Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation Services fully supports	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all other structures on the site. All nine silos to be restored.	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a small portion of the silos extending above grade, cascading down towards Ireland Park. Remaining	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.  Interm measure to meet 2009 mandate until Council decides on future course of action with the
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation Services fully supports this proposed alternative.	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all other structures on the site. All nine silos to be restored.  Heritage Preservation Services does not support	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a small portion of the silos extending above grade, cascading down towards Ireland Park. Remaining	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.  Interm measure to meet 2009 mandate until Council decides on future course of action with the site.
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation Services fully supports this proposed alternative.	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all other structures on the site. All nine silos to be restored.  Heritage Preservation Services does not support this proposed alternative.	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a small portion of the silos extending above grade, cascading down towards Ireland Park. Remaining portion will be restored.	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.  Interm measure to meet 2009 mandate until Council decides on future course of action with the site.  Dismantle Marine Legs
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation Services fully supports this proposed alternative.	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all other structures on the site. All nine silos to be restored.  Heritage Preservation Services does not support this proposed alternative.	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a small portion of the silos extending above grade, cascading down towards Ireland Park. Remaining portion will be restored.  Heritage Preservation	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.  Interm measure to meet 2009 mandate until Council decides on future course of action with the site.  Dismantle Marine Legs and remove all loose
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation Services fully supports this proposed alternative.	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all other structures on the site. All nine silos to be restored.  Heritage Preservation Services does not support this proposed alternative.	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a small portion of the silos extending above grade, cascading down towards Ireland Park. Remaining portion will be restored.  Heritage Preservation Services does not	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.  Interm measure to meet 2009 mandate until Council decides on future course of action with the site.  Dismantle Marine Legs and remove all loose material from east and south elevation of silo
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation Services fully supports this proposed alternative.	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all other structures on the site. All nine silos to be restored.  Heritage Preservation Services does not support this proposed alternative.	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a small portion of the silos extending above grade, cascading down towards Ireland Park. Remaining portion will be restored.  Heritage Preservation Services does not support this proposed	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.  Interm measure to meet 2009 mandate until Council decides on future course of action with the site.  Dismantle Marine Legs and remove all loose material from east and south elevation of silo
Section Total	Preserve all structures on the site.  Heritage Preservation Services fully supports this	Preserve through restoration, the Silo Structures, Head House and Marine Legs and demolish all building to the west of the silos.  Heritage Preservation Services fully supports this proposed alternative.	Preserve a symbolic representation of the silo structures.  Preserve a square cluster of the nine (9) south most silo's adjacent to Ireland Park and demolish all other structures on the site. All nine silos to be restored.  Heritage Preservation Services does not support this proposed alternative.	Preserve a symbolic tiered representation of the silo structures identified in Alternative C.  Demolish upper portion of the square cluster of nine (9) silo's leaving a small portion of the silos extending above grade, cascading down towards Ireland Park. Remaining portion will be restored.  Heritage Preservation Services does not support this proposed	Total Demolition of the Structures on the Site.  Heritage Preservation Services does not support this proposed alternative.	Senior Management mandate to open public access to Ireland Park along the east elevation of Silo Structures in 2009.  Interm measure to meet 2009 mandate until Council decides on future course of action with the site.  Dismantle Marine Legs and remove all loose material from east and south elevation of silo structures. No demolition
