

NOTICE OF MOTION

Moved by: Councillor Peter Milczyn

SUMMARY:

Over the past several years I have received numerous complaints and expressions of concern from residents in the community abutting Spring Garden Park. They specifically are concerned about the state of the walking trail along the Mimico Creek south of Bloor Street West, and the regular maintenance/upkeep. The trail is virtually impassable in some sections due to the large holes that have been dug by users, and fallen trees.

RECOMMENDATIONS:

1. That Etobicoke York Community Council request that the Manager of Parks and Recreation, West District, in conjunction with the appropriate staff at the Toronto Region and Conservation Authority, review the options for formalizing the walking trail along Mimico Creek south of Bloor Street and have it included as a recognized trail. Their review of physical improvements that may be required, along with addressing ongoing maintenance requirements be reported back to Etobicoke York Community Council and the local Councillor with their recommendations.
