## STAFF REPORT ACTION REQUIRED

## Berry Creek Drive - Speed Limit Amendment

| Date: | August 13, 2009 |
| :--- | :--- |
| To: | Etobicoke York Community Council |
| From: | Director, Transportation Services - Etobicoke York District |
| Wards: | Ward 2 - Etobicoke North |
| Reference <br> Number: | p:\2009\Cluster B\TRA\EtobicokeYorkleycc090107-to |

## SUMMARY

This staff report is about a matter for which the Community Council has delegated authority from City Council to make a final decision.

The purpose of this report is to obtain approval to reduce the speed limit on Berry Creek Drive. A staff assessment has determined that the criteria for the installation of a $40 \mathrm{~km} / \mathrm{h}$ speed limit are achieved, in that the findings are consistent with the $40 \mathrm{~km} / \mathrm{h}$ Speed Limit Warrant.

Approval of this report will result in a $40 \mathrm{~km} / \mathrm{h}$ speed limit being posted on Berry Creek Drive between Clearbrooke Circle and Moncrieff Drive.

## RECOMMENDATIONS

Transportation Services recommends that Etobicoke York Community Council approve:

1. Enacting a $40 \mathrm{~km} / \mathrm{h}$ speed limit on Berry Creek Drive between Clearbrooke Circle and Moncrieff Drive, as the requirements of the $40 \mathrm{~km} / \mathrm{h}$ Speed Limit Warrant are achieved.

Financial Impact

| Type of Funding | Source of Funds | Amount |
| :---: | :---: | :---: |
| Available within current budget | Transportation Services Operating Budget | $\$ 300.00$ |

## ISSUE BACKGROUND

Transportation Services staff received a request from Councillor Rob Ford, Ward 2, Etobicoke North, on behalf of a resident of Berry Creek Drive to investigate speeding on the street. To quantify concerns, speed studies were conducted by staff on Berry Creek Drive. The study results were applied to the $40 \mathrm{~km} / \mathrm{h}$ Speed Limit Warrant. A map of the area is Attachment 1.

## COMMENTS

Berry Creek Drive is an 8.5 metre wide two-way local road built to urban standards with a speed limit of $50 \mathrm{~km} / \mathrm{h}$. The street has sidewalks on both sides of the roadway. The surrounding land area consists of single family residential dwellings.

Automatic speed and volume studies were conducted on Berry Creek Drive. These study results reveal that the majority of motorists travel at speeds less than the $50 \mathrm{~km} / \mathrm{h}$ speed limit with an $85^{\text {th }}$ percentile speed of $45 \mathrm{~km} / \mathrm{h}$. The $85^{\text {th }}$ percentile is the speed at or below which the majority of motorists feel comfortable travelling under the existing roadway conditions. The 24 -hour volume was recorded as 311 vehicles.

Toronto Police Service collision records for a three-year period ending December 31, 2007, indicate that there have been no reported collisions on this road.

Under the current Council Policy, $40 \mathrm{~km} / \mathrm{h}$ speed limits may be implemented on streets where the Road Width and either Pedestrian or Road and Traffic Environment criteria are met. Berry Creek Drive satisfies both the Road Width and Road and Traffic
Environment criteria as set in the attached Appendix A: Table 1, since the road has two curves with a safe travel speed of less than $40 \mathrm{~km} / \mathrm{h}$. It is prudent to reduce the speed limit to reflect these conditions.
