**Fairness Protocol for Removal of Street Vendors****Origin**

(October 21, 2009) Report from Executive Director, Municipal Licensing and Standards

**Summary**

The purposes of this report are three-fold: to consider a fairness protocol for the removal of street vendors when the City requires them to vacate their permitted vending location; to determine the feasibility of establishing a threshold system similar to the taxi industry; and in consultation with the City Solicitor, to review the process for the City rescinding and not renewing street vending permits on an annual basis.

Additionally, staff was asked to report back on modifications to the moratorium in Wards 20, 27, and 28 so as to allow for the receipt of applications for the re-issuance of vending permits that are returned or not renewed by existing vendors in the area bounded by the moratorium, to maintain the number of existing vending locations in those Wards.

The City Solicitor, Technical Services, the Toronto Transit Commission (TTC), Transportation Services – Street Events Unit, as well as the Street Food Vendors' Association was consulted in the preparation of this report.

**Financial Impact**

There are no financial impacts beyond what has already been approved in the current year's budget.

## Motion Controlled Apartment Building Corridor Lighting

*Public Notice Given*

### Origin

(October 19, 2009) Report from Executive Director, Municipal Licensing and Standards

### Recommendations

The Executive Director, Municipal Licensing and Standards recommends that:

1. City of Toronto Municipal Code Chapter 629, Property Standards, be amended per Appendix “A” attached to this report; and
2. The City Solicitor prepare the necessary bill to give effect to the recommendations of this report.

### Summary

The purpose of this report is to recommend an amendment to Toronto Municipal Code Chapter 629, Property Standards, § 629-36 to permit owners of existing multiple residential apartment buildings to install and use motion controlled switches for the operation of corridor and garage lighting and thereby realize energy savings.

This would reconcile the requirements of Toronto Municipal Code Chapter 629, § 629-36 with the requirements of the current Ontario Building Code, Section 12.2.2.1.

### Financial Impact

There are no financial impacts beyond what has already been approved in the current year’s budget.
