Dear Ms Ting:

TOOS Ltd., a taxi and limousine insurance risk management service supports the recommendations of Mr. Jim Hart, Executive Director, Municipal Licensing and Standards, pertaining to the vehicle branding program administered by the Ontario Ministry of Transportation for licensed limousines in the City of Toronto.

TOOS Ltd. has insured Toronto taxis and limousines for the past 17 years and to date there have been no safety issues brought to our attention which prevented the insuring of these imported vehicles. We support obtaining the "Car Proof" and "Carfax" reports which provide the vehicle history.

The industry is facing some difficult economic challenges in the future and for this reason TOOS Ltd. would also support the use of imported vehicles for taxis service in the city of Toronto providing they have the approved documentation.

Safety is never compromised when proper guidelines are in place.

Yours truly,
