Scarborough Community Council

I would appreciate if we can get a Clerk's presentation/report as to how the Scarborough Community Council can better engage the public. I am confident that there was an original vision and thought to make this happen. I find, however, that the fixed format that is currently followed, does not seem to effectively serve public involvement/engagement.

Councillor Kelly introduced a nice touch with the Moment of Reflection / Scarborough Highlight. I would like for us to explore adding to this initiative.

Accordingly, kindly consider the following:

Making Scarborough Community Council effective

- Should we consider having a set time for the public to address us, their Councillors, on issues that are not on the Agenda?
- Should we consider evening meetings to allow the public an open forum to speak to us?
- Should we consider that SCC has meetings in different parts of Scarborough?
- How can we engage public experts to provide insight on specialized topics that affect our community?

Thank you.

Mike Del Grande
