FINANCIAL IMPACT

There are no financial implications associated with this report.

DECISION HISTORY

Fire Services receives applications from property owners to designate locations on their properties as fire routes under City of Toronto Municipal Code Chapter 880. The fire route prohibits the parking of vehicles at the designated location and provides for the removal of such vehicles, to allow continuous access to Fire Services vehicles, equipment and apparatus for the prevention and protection against fires.

Site plans submitted with the applications are examined by Fire Services staff and the locations are recommended for designation as fire routes so long as they satisfy the requirements of Chapter 880, as amended.

COMMENTS

Designation of fire routes ensure appropriate access for fire vehicles across the City and assist with regulating fire prevention and reduce the negative impact of fire on human lives, property and the environment. Applications have been received to designate fire routes for the following locations in the City of Toronto:

- a) 1250 Markham Road
- b) 3223 Kennedy Road

Site plans for these locations have been examined by Fire Services. The Fire Chief recommends that the fire routes be designated for the above locations to assist with public safety for residents.
