  - e. balconies to have opaque glass screens to reduce overlook;

### **Origin**

(January 22, 2009) Report from Director, Community Planning, Scarborough District

### **Summary**

The applicant has appealed the zoning by-law amendment and site plan control applications for a 12-storey, 126 unit residential-commercial mixed use building at 3520 Danforth Avenue to the Ontario Municipal Board (OMB). The applicant is seeking a settlement of the issue and has made a “without prejudice” submission featuring a 7-storey, 95 unit residential-commercial mixed use building. The applications were made prior to the enactment of the new provisions of the Planning Act and the City of Toronto Act, 2006. The applicant and an area resident have also appealed the Danforth Avenue Study Zoning By-law Number 104-2008, enacted by Council on January 30, 2008, as it applies to this site only.

The purpose of this report is to seek Council’s direction on the appeals. The OMB has scheduled a 5-day hearing to begin on March 2, 2009.

The proposed 7 storey, 95 unit building is generally in keeping with the vision and direction for development in this area established by the Danforth Avenue Study approved by City Council in January of 2008. Accordingly, it is recommended that the City Solicitor be directed to support a settlement of the “without prejudice” submission, subject to addressing the outstanding issues and concerns outlined in this report.
